This analysis of the COVID 19 Novel Strain of the Coronavirus is a collection of my research and others on this 2020 Pandemic situation. The result of the findings of this analysis could lead to a deeper sympathy for the severity of this alleged Pandemic and its victims, or contrarily, to the realization that this Pandemic is being artificially hyped, falsely dramatized, and played by the Satanic Elite and their ignorant, compliant, and often corrupt media outlets to instill fear and terror into the common man. Theoretically, the reason for this reign of terror is to service the purpose of plunging the entire world into a Socialism so acutely widespread and economically devastating, which they seem to be achieving, that they are able to usher in a Communistic New World Order in record breaking time. The unimaginably pain and suffering which would result for the common person from such a transference of power to the Elite 1% is tantamount to the Satanic Technocratic Beast System that most know all too well about from Biblical references. We are facing a melding of the books, 1984 and Brave New World, laced with Satanic sadism and mass extermination if we do nothing but submit to this Satanic Cabal. There is no greater thing to figure out right now in all the world than the real reasons, motivations, intentions, purposes, and agendas behind the current COVID 19 Pandemic.

Dedication

This book is dedicated to those who possess the incorruptible beauty of an unquenchable spirit, who are willing to face consummate and unrelenting persecution to liberate themselves and others in the face of insurmountable odds. If you fight for yourself, only, you fight in vain, for no Man escapes mortality, and your fight was but a losing folly, from the start. But if you fight for the greater liberation of all souls, you fight for your Creator, and the mystery, therein, that such a fight entails.

Death is no escape for the human soul, for all Men are intrinsically wicked, as the rising Technocratic Plutocracy reflects, and are, as such, accountable to The Creator. No man escapes his spiritual fate through mortal death, despite the blind ignorance of Atheist claims. And hence, all people are accountable to that which created them. Nobody is entirely good. And so, Redemption from this intrinsic wickedness of Mankind (which Atheists like to call "human nature") cannot be won on the battlefield of personal survival and glory, but rather, it is won in the submission of the soul to that which governs all things good, true, and pure. My research suggests that it is won through the repurchase of the human soul through the conduit of **HUMILITY**, the enemy of the current prideful Luciferic Powers in control.

The alternative is grievous. The alternative is to become subsumed within the selfish Satanic reign of the rising, grossly Narcissistic, Luciferian Beast System, a Scientific Dictatorship so vast that few have imagined its true scope. It will suck you in and never let go, as we are all coming to grips with. The Satanic Elite have assumed full control of the Earth. Ignorance of this in not bliss. Ignorance is suicide.

Therefore, cleave to Him, as a child, who thought it not robbery to be equal with God. If you thought you lived in a material world, you never could have been any further from the truth, for we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places. -- Ephesians 6:12 King James Version

COVID 19 Novel Coronavirus "Plandemic" 2020 Analysis

This analysis of the COVID 19 Novel Strain of the Coronavirus is a collection of my research and others on the 2020 Plandemic. I say Plandemic because this was a planned crisis, long in the making. The result of the findings of this analysis could lead to a deeper sympathy for the severity of this alleged Pandemic and its victims, or contrarily, to the realization that this Plandemic is being artificially hyped, falsely dramatized, and played by the Satanic Elite and their ignorant, compliant, and often corrupt media outlets to instill fear and terror into the common man.

Theoretically, the reason for this reign of terror is to service the purpose of plunging the entire world into a Socialism so acutely widespread and economically devastating, which they seem to be achieving, that they are able to usher in a Communistic New World Order in record breaking time.

The unimaginable pain and suffering which would result for the common person from such a transference of power to the Elite 1% is tantamount to the Satanic Technocratic Beast System that most know all too well about from Biblical references.

We are facing a melding of the books, ***1984*** and ***Brave New World*****,** laced with Satanic sadism and mass extermination if we do nothing but submit to this Satanic Cabal. There is no greater thing to figure out right now in all the world than the real reasons, motivations, intentions, purposes, and agendas behind the current COVID 19 Pandemic.

The Satanic Elite are playing a chess game with the world, and currently using COVID 19 as driving pawn on the socio-geopolitical landscape. It's a Bill Gates style Technocratic Vaccine and RFID chip game and we are all being played. With each move the world makes, they counter, anticipating many moves ahead. For anyone who's studied history, the strategy is always the same and predictable: Justify more imposition with the excuse of saving us and roll out more and more restrictive laws to tighten the noose on freedom, as a consequence. Remember that COVID 19 is merely another chess piece being used to shift the world into this Technocratic New

World Order Slave State. The United Nations and its Luciferian sponsors have a number of chess pieces in place on the world chess board, and they are preparing for The Checkmate:

Technocratic Plutocracy World Government

To name of few of their chess pieces:

1. COVID 19 Pandemic
2. Climate Change
3. World Economic Collapse
4. Chemtrails
5. War

6. **Alice Bailey's 10 Point Plan:**

a. Take God and prayer out of the education system
b. Reduce parental authority over the children
c. Destroy the Judeo-Christian family structure
d. If sex is free, then make abortion legal and make it easy
e. Make divorce easy and legal, free people from the concept of marriage for life.
f. Make homosexuality an alternative lifestyle
g. Debase art, make it run mad
h. Use media to promote and change mindset
i. Create an interfaith movement
j. Get governments to make all these laws and get the church to endorse these changes.

Conclusion

Humanity is at a crossroads it has never before faced. We are up against a Technocratic Plutocracy, where the ruling elite, fueled by funds from the richest billionaires in the world, seeks to transform the world into a Communist Slave State using the power of a Scientific Dictatorship. This Luciferian Elite has engineered this latest Pandemic crisis, after many years of planning, so that it can take control of the Earth and everything on it. While some 'sweeteners' in the short term, such as minimal income support for individuals and businesses in some countries, are being offered to make it look as if governments are responding to the crisis with our best interests in mind, whatever palliative measures are being taken are simply designed to ensure that we remain submissive as we are led to our grim fate.

But have they really considered a significant amount of the world refusing to fall for their plans and ploys? Have they truly anticipated that offensive move against

them in the chess game they call world domination? It is up to each person to not STAND for their manipulations anymore. It is up to each person to not FALL for their intimidation and deception. In this final hour, will you **Stand or Fall**?

The world was locked down by an alleged virus that is less dangerous than the common flu, with a tiny fraction of the casualties as the common cold. The media and governments of the world have lied about the casualty numbers and have falsely re-categorized virtually every cause of death other than COVID 19 as COVID 19.

There is no COVID 19 Super Virus.

--Gregory L. Garrett

The only place people are dying from COVID 19 is in fictional news dramas on television. Otherwise, the hospitals are empty, and the testing centers are empty. This is the biggest psyop in history to herd the world into their houses in fear, and advance closer towards administering RFID filled, potentially harmful or lethal Vaccines. The media is nothing more than the fictional Pandemic movie, ***Contagion***, on infinite loop with the explicit intention of pulling on your heart strings to emotionally traumatized you, keep you paralyzed with fear, passive, submissive, and compliant.

--Gregory L. Garrett

"A bad flu season is 80,000 dead and we've got 18,000 dead this year from the flu so far and 100 dead from Corona. Which should you be worried about, influenza

or Corona? 80,000 versus 100, it's not a trick question. What I have a problem with is the panic and the fact that businesses are getting destroyed and people's lives are getting upended. Not by the virus, but by the panic. The panic must stop, and the press they really need to be held accountable, because they are hurting people."

--Dr. Drew Pinsky

All those mainstream media videos coming out of Communist China of people dying on the streets and thrashing bodies on gurneys were fake and sent out by Communist propagandists.

Real videos show Hong Kong freedom fighters being rounded up in handcuffs and sent off to the "hospital" where it's likely their organs are harvested, and they are cremated.

Real videos show elderly people in Communist China trapped in buildings and left to die with no food.

Real videos show that Communist China installed major NEW surveillance cameras and technology to monitor people on the street and in their offices since the virus was released.

Real videos show the Chinese people yelling "IT'S ALL FAKE!" (In Chinese, of course.) from high rises, as the Communists actors pretend to care for them on the streets below.

--The Real News, 2020

So far, it appears ONLY Left-Wing leaders and celebrities are testing positive for Wuhan virus. Evidently, COVID 19 cannot harm Right-Wing Conservatives who do not support this fake Pandemic. How odd? Sounds like collusion to me.

Various Hypotheses and Analysis Surrounding the COVID 19 Pandemic

I have attempted to parlay my findings regarding the COVID 19 Pandemic into the categories of Hypothesis and Analysis. In assembling this book, it is my intention to supply as much information and perspective on the COVID 19 Pandemic as to enable the average researcher enough varied analysis to embark upon their own research, as well as to offer my unique views on this situation in order to facilitate a clearer apprehension of the antecedents, causes, and end goals of this alleged Pandemic.

By unveiling the mosaic of agendas, intentions, scalar forces, and people behind this history changing Pandemic, I trust each will come to a deeper understanding of what the underlying and teleological, or far reaching functions, ends, purposes, goals, and consequences might be in this extremely serious socio-political crisis.

The Bioweapon Hypothesis

Assuming COVID 19 is a Wuhan produced bioweapon, what theoretically might have happened in China in way of containment, may be exported and implemented in America and other countries, and may look like the following:

a.) Mass extermination
b.) Human Burn pits
c.) Genocide
d.) Crematoriums
e.) Forced lock downs
f.) Spraying Streets with Lysol from huge truck sprayers
g.) Forced quarantine up to 400 million
h.) Apprehension of all suspected carrier by force from house to house
i.) Burning of buildings suspected of housing the Corona Virus
j.) Shutting down all water supplies to the cities and towns
k.) Mass round-up of citizens to be sent to quarantine and extermination centers and

l.) Forced Arrests
m.) DOD enforced Internment camps
n.) Mandatory vaccines which may be lethal
o.) Lock down of all cities
p.) Emergency Broadcasts
q.) Epidemics coming in waves
r.) FEMA Region 9 style open to house rounded up victims Area of Operations: FEMA Region 9's area of responsibility includes: Arizona, California, Hawaii, Nevada, Guam, American Samoa, Commonwealth of Northern Mariana Islands, Republic of Marshall Islands, Federated States of Micronesia and more than 150 sovereign tribal entities
s.) COVID 19 floats and travels in the air like pollen
t.) COVID 19 is theoretically extremely small so it is hard to block even with a N95 of N99 Mask
w.) Nobody has any immunity to it since it is new

These measures could be implemented in America and other countries to create a world Pandemic Medical Martial Law extermination of billions in the name of saving the remaining from death.

Jon Rapoport's Blog on The COVID 19 Pandemic

In my ongoing coverage of the "epidemic" (archive here), I've written about the covert-operation aspect of the brutal game.

I want to add a few notes.

By its very nature, a covert op is meant to CONCEAL its true goals and details and players, so it's no surprise we have unanswered questions. Rushing to supply all the answers in five minutes is a futile exercise.

A covert op can be invented and planned from the get-go; or players, seeing an event unfold, can jump onboard in mid-stream, take control, and use the event to launch an operation.

A covert op has cover stories and false trails. These are standard in the intelligence business.

A cover story is designed to divert attention from what is actually going on. It is basically a false picture floated to obscure the truth. The intent is: get people dividing into camps and arguing with each other about VARIATIONS of the cover story—thus taking them further from the hidden facts and motives.

In this case, the cover story would be a contagious virus jumped species in China and started harming and killing people; it's spread.

People began taking sides: the contagious coronavirus is a natural microbe; it's a leak from a bio war lab; it was weaponized in a lab and intentionally released; it's rather harmless for the most part; it's deadly; its effects are somehow magnified by interacting with chemtrails; because people are dying, the virus must be the cause, etc.

Once people have divided into camps, the covert operators can twist several of these cover-story variations, thus creating false trails, down which people can travel, without ever reaching an end.

For example, a loose study might appear "which proves the coronavirus is a bioweapon." If you read the study carefully, though, you realize the authors aren't claiming the virus has been weaponized. Further, the study authors are saying the virus has a peculiarity which MIGHT mean THIS or COULD mean THAT or POSSIBLY IMPLIES something else. And there appear to be no other studies which confirm any of these equivocal findings.

But within an hour of the study being published, fifty thousand people on the Web are circulating this "proof of weaponization."

In any so-called epidemic, you will see some ex-military or ex-intelligence spook appear out of nowhere with "expert insider testimony" about the virus. He "knows it's a weapon." Therefore, it must be.

Likewise, other authority figures will show up to capture audiences with unproven revelations about the "bioweapon virus," or "the leak of the virus from a lab," or the "theft of the virus." Their audience, having rejected conventional media and government authorities, is looking for alternative substitutes. And they'll get substitutes.

Notice that, in all these insider pronouncements, whatever they are, there is a re-enforcement of the basic idea that THE VIRUS is the cause of the "epidemic." BUT REMEMBER, "THE VIRUS" IS THE BASIC COVER STORY. Planners of a covert op want people to buy the basic cover any which way.

To illustrate these points, imagine that, in an area of forest 30 miles from a town, people discover a large patch of dead trees. Some have fallen over. Others, leafless and gray, are still standing. At first, no one takes action. Then, it's obvious the patch is growing larger. More trees are falling down. More branches and leaves are drying up and dropping on the ground.

The town newspaper, aided by pronouncements from local officials, runs a story about a fire. There was a fire in that part of the forest. It was "so severe and hot, its effects are still being felt." NOW, people begin arguing about the cause of the fire. It was a lightning hit. Someone set a blaze, using flammable liquid that burned at an exceptionally high temperature. Drug dealers fought with one another and burned up the drugs. A sinister creature, half-animal, half-human, rumored to live in the woods, set the fire. ET aliens set the blaze. Their small ship crashed and burned.

The fire is the cover story. People are arguing about variations of the basic cover. Actually, six months ago, a town firm that secretly sells a dangerous and illegal pesticide, believing they were about to get busted, sent employees with drums of the poison into the forest to dump them. That's what happened. But the cover story is now so ingrained in minds, few people will consider there was no fire…THERE HAD TO BE A FIRE.

After having researched and written about epidemic duds (SARS, Swine Flu, Ebola, Zika, etc.) for many years, I've taken a different approach.

I've asked more BASIC questions at every turn.

If public health officials and governments announce an outbreak and a virus, I ask, "How did they discover the new virus?" That's a reasonable inquiry. "Did they really find and isolate a new virus?" "What procedures did they use for the job?" "Are those procedures accurate and valid?" "Did the scientists who rushed to the outbreak-locale to take tissue samples—are these the CDC or World Health Organization virus hunters who always find a new virus, even if, at the designated location, an industrial corporation is releasing torrents of polluted poison into the ground and the water?

Which leads me to my next basic question: assuming some harm is being visited on people, are there clear causes that have nothing to do with a virus, causes that would account for the profile of harm that has been announced? And if so, who would benefit from hiding these other clear causes by using the cover story of a virus? Corporations, governments? Who would benefit, on the back end, from the virus cover story? Drug companies? Vaccine companies?

I ask: how many cases of the "epidemic" have been announced? How many deaths? Exactly how are these cases being identified and counted? What diagnostic tests are being done? Are the tests accurate and valid? Again, this is a reasonable inquiry. If the authorities are claiming a certain number of people are being harmed, I want to find out HOW these "experts" are coming to that conclusion.

I ask: what is the list of symptoms being attributed to the "epidemic illness?" Are these symptoms so generalized they already fit large numbers of people without the claim that the cause is a new virus? For example, are typical flu-like symptoms, which apply to millions of people, suddenly being shifted over and counted as cases of the "new epidemic?"

I ask: in all modern epidemics, are there common, long-accepted medical tests and procedures which are arbitrary and unproven, which should be openly debated, but aren't? Is the story of a virus used to hide corporate and government crimes?

There are other questions I ask, but you get the idea. I go under the cover story of the moment and look for more fundamental lies and truths. I hit the "stress points" of the cover story.

These basic questions have generated all my previous articles on the current "coronavirus crisis."

I keep asking, looking, and answering.

If I find out, in asking and answering these questions that, yes, questionable procedures have been used in discovering the new virus in the first place; unworkable, dubious, and worthless tests have been used to diagnose and label patients with the epidemic disease; cases are undoubtedly "imported" from traditional diseases, in order to falsely inflate the number of cases in the epidemic; causes of illness, other than the virus, are present in an area where the epidemic started; the epidemic illness is a familiar generalized list of symptoms which are present in millions of people—if I find out all these things, then the "new epidemic" with a new viral cause is a con job.

If, after stripping away the number of people claimed to be "epidemic cases" who most likely aren't, I find that the true number of cases appears to be small, then there is no epidemic.

If the number of cases still seems to be high, then I look deeper into non-viral causes which are currently operating and influencing illness.

For my findings on this "coronavirus epidemic," I suggest going back and reading all my articles in this ongoing series (archive here).

For those who have been with me from the beginning, I thank you for your support and interest.

I'll close this piece with an example. In 2003, there was another coronavirus epidemic: SARS. Its symptoms were basic flu with, in some cases, acute respiratory problems.

As I've detailed, a Canadian biologist, Frank Plummer, working for the World Health Organization, spoke frankly to the press, saying the number of SARS patients with the coronavirus was fewer and fewer. In fact, it was approaching zero. This, obviously, cut the legs out from under the claim that SARS was a new disease caused by a new coronavirus.

Where did SARS begin? Where was it first found? Guangdong, China. In their excellent book, Virus Mania, Torsten Engelbrecht and Claus Kohnlein explore non-virus causes of flu-like illness in that locale. They found causes. It turns out this area is one of the world's largest re-cyclers of e-waste:

"Guangdong is China's largest industrial area…extremely polluted. Garbage lies everywhere; above all high-tech waste…For $1.50 a day, locals disassemble computers, monitors and printers with their bare hands, endangering both their own health and the environment… There, workers empty toner cartridges from laser printers the whole day long without protective masks, breathing in fine carbon dust. Others, mostly women and girls, dip circuit boards into baths of liquid lead to separate and collect the soldering materials with which the memory chips and processors are attached to the plates. Unprotected, they are exposed to toxic fumes. While the plastic plates are simply burned up, the chips and processors are put in acid baths, to extract their gold. Here as well, poisonous fumes are generated, and the unusable leftover acids are just dumped into the river. A lot of garbage is simply burned up or dumped onto rice fields, irrigation facilities or into waterways. The bodies of water and groundwater around Guiys have become so contaminated that drinking water has to be brought in daily from other cities…"

A real cause of real illness. No need for a virus. Except…as a cover story.

Theoretical Treatments and Cures from the Standpoint of Viewing the COVID 19 Strain of the Coronavirus as a Real Bioweapon

Is COVID 19 more insidious than other coronaviruses? The "genomic packing" mechanism of COVID 19 may be more like Ebola and HIV, researchers in the US and China say:

Scientists around the world are racing to understand COVID-19, the novel coronavirus that has infected more than 210,000 people worldwide and killed over 8000 people as of Thursday. While there are many known viruses in the same class of coronavirus as COVID-19, some of its peculiarities — including its infectivity — are perplexing researchers. Now, a recent research paper viewable on the Chinese research site Chinaxiv.org and previously reported on by the South China Morning Post notes that the new coronavirus has an "HIV-like mutation" that gives it novel properties.

"Because of this mutation, the packing mechanism of the 2019-nCoV may be changed to being more similar to those of MHV, HIV, Ebola virus (EBoV) and some avian influenza viruses," the English abstract of the paper states.

Alliin as an Angiotensin Enzyme Blocker

1.) Commercial designed and patented gene sequence in this super virus
2.) Masks do not block it. You need an Outbreak 4 level 2 containment suit to block it.
3.) The 19 COVID Corina Virus stays up to 28 days on surfaces, is airborne and fluid transported.

4.) Weaponized super virus aimed at America via the conduit of China outbreak
5.) They have not stopped shipping to America of infected Wuhan victims: Proof: Infected Couple shipped by from Wuhan to Hollister, Ca
6.) Medical Martial Law expected to roll out in America s as a reboot of China crisis

Angiotensin II is a very potent chemical produced by the body that primarily circulates in the blood. It causes the muscles surrounding blood vessels to contract, thereby narrowing the vessels. The narrowing of the vessels increases the pressure within the vessels causing increases in blood pressure (hypertension). Angiotensin II is formed from angiotensin I in the blood by the enzyme angiotensin converting enzyme (ACE). (Angiotensin I in the blood is itself formed from angiotensinogen, a protein produced by the liver and released into the blood.) Angiotensin converting enzyme inhibitors (ACE inhibitors) are medications that slow (inhibit) the activity of the enzyme ACE, which decreases the production of angiotensin II. As a result, blood vessels enlarge or dilate, and blood pressure is reduced.

The Corona Virus highjacks the Angiotensin enzyme in the endocrine system which regulates blood pressure. Alliin, the active ingredient in garlic, is a natural and safe Angiotensin enzyme blocker which results in preventing the Wuhan COVID-19 Corona Virus from attaching to the Angiotensin II (ACE II) chemical for transport. If the 19 COVID Corona Virus can highjack the enzyme receptors that allow it to freely transport with the ACE II chemical, then it can wreak havoc to the Kidneys, Respiratory System, and the Heart, which is exactly what we see with this particular strain of Corona Virus.

A genetic analysis of the spike-protein genes – the exact region that was bio-engineered by the UNC lab in 2015, where Zhengli Shi and Xing-Yi Ge previously isolated a batty coronavirus that targets the ACE2 receptor just like this 2019-nCoV strain of the coronavirus does – indicates an artificial and unnatural origins of the Wuhan Strain's spike-protein genes when they are compared to the genomes of wild relatives.

Instead of appearing similar and homologous to its wild relatives, an important section of the Wuhan Strain's spike-protein region shares the

most genetic similarity with a bio-engineered commercially available gene sequence that's designed to help with immunotherapy research. It is mathematically possible for this to happen in nature – but only in a ten-thousand bats chained to ten-thousand Petri dishes and given until infinity sense.

Use of angiotensin receptor blockers such as Telmisartan, Losartsan in nCoV Wuhan Corona Virus infections – Novel mode of treatment

Against the backdrop of the rapid spread of novel corona virus infection from Wuhan, China, to large areas globally and that besides supportive management, no novel modalities of treatment have been offered, we suggest the use of angiotensin II receptor blockers as a treatment for this infection.

Yushun Wan, Jian Shang et al have analyzed the potential receptor usage by 2019- nCoV based on the knowledge on sequencing of SARS- CoV. They have found that the sequence of 2019 nCoV receptor binding motif that directly contacts ACE2 (receptor Angiotensin converting enzyme 2) is similar to that of SARS–CoV & suggest that 2019-nCoV (Wuhan) uses ACE2 as its receptor. Their structural analysis predicted that the Wuhan Corona Virus uses ACE2 as its host receptor. They have further stated that a single mutation significantly enhances the ability of nCoV (Wuhan) to bind with human ACE2.

Based on this, we hypothesize the use of angiotensin II receptor blockers (ARB) available for clinical use can be potential drugs to be given for control of viral spread of novel corona virus (Wuhan) infection. An unpublished observation by one of us (MP) is that people using Losartan or Telmisartan tablets as antihypertensives get lesser attacks of cold & flu like illnesses. Both these drugs also do not produce cough as the side effect so commonly seen with ACE inhibitors.

Losartan and Telmisartan strongly bind to the AT1 receptors more than Valsartan. Therefore, use of the former could be suitable in treatment of novel corona virus (Wuhan, China) infections. Mode of administration in addition to being given orally, could be in the form of a nasal spray. Published literature is scant on this information. Clinicians and scientists may consider use of Losartan or Telmisartan in therapeutic doses for preventing the nCov virus entering the host cell and spread of infection. Rapid clinical trials are the need of the hour.

Alliin

From Wikipedia, the free encyclopedia:

...that is a natural constituent of fresh garlic. It is a derivative of the amino acid cysteine. When fresh garlic is chopped or crushed, the enzyme alliinase converts alliin into allicin, which is responsible for the aroma of fresh garlic.

Garlic has been used since antiquity as a therapeutic remedy for certain conditions now associated with oxygen toxicity, and, when this was investigated, garlic did indeed show strong antioxidant and hydroxyl radical-scavenging properties, it is presumed owing to the alliin contained within. Alliin has also been found to affect immune responses in blood.

Alliin was the first natural product found to have both carbon- and sulfur-centered stereochemistry.

Chemical synthesis

The first reported synthesis, by Stoll and Seebeck in 1951, begins the alkylation of L-cysteine with allyl bromide to form deoxyalliin. Oxidation of this sulfide with hydrogen peroxide gives both diastereomers of L-alliin, differing in the orientation of the oxygen atom on the sulfur stereocenter.

Allicin Capsule Form

Allicin is a compound produced when garlic is crushed or chopped. Available in dietary supplement form, it's been found to reduce inflammation and offer antioxidant benefits. Fresh garlic contains an amino acid called alliin. When the clove is crushed or chopped, an enzyme, alliinase, is released. Allicin is an angiotensin receptor blocker.

ACE Inhibitors Drug Class Side Effects, List of Names, Uses, and Dosage

What are ACE inhibitors, and how do they work (mechanism of action)?

Angiotensin II is a very potent chemical produced by the body that primarily circulates in the blood. It causes the muscles surrounding blood vessels to contract,

thereby narrowing the vessels. The narrowing of the vessels increases the pressure within the vessels causing increases in blood pressure (hypertension). Angiotensin II is formed from angiotensin I in the blood by the enzyme angiotensin converting enzyme (ACE). (Angiotensin I in the blood is itself formed from angiotensinogen, a protein produced by the liver and released into the blood.) Angiotensin converting enzyme inhibitors (ACE inhibitors) are medications that slow (inhibit) the activity of the enzyme ACE, which decreases the production of angiotensin II. As a result, blood vessels enlarge or dilate, and blood pressure is reduced. This lower blood pressure makes it easier for the heart to pump blood and can improve the function of a failing heart. In addition, the progression of kidney disease due to high blood pressure or diabetes is slowed.

Hydroxychloroquine, Chloroquine, and Azithromycin

Pfizer has announced positive data for the use of its azithromycin (Zithromax) drug, along with hydroxychloroquine, in a coronavirus (Covid-19) clinical trial performed in France.

The trial was conducted to assess anti-malarial drug hydroxychloroquine in 20 patients, six of which were also administered with azithromycin.

Compared with 16 controls, the proportion of participants who achieved virologic cure following six days of treatments was observed to be higher in the 20 patients treated with hydroxychloroquine.

In addition, the rate of cure was highest in people who received hydroxychloroquine and azithromycin.

Pfizer previously assessed azithromycin as an anti-infective alone and also in combination with other therapies, including chloroquine.

Additional COVID 19 Possible Characteristics

- Carriers Are Highly Contagious Even with No Symptoms
- Cytokine Storms (A Cytokine storm is an overproduction of immune cells and their activating compounds (cytokines), which, in a flu infection, is often

associated with a surge of activated immune cells into the lungs) resulting in "Drop Dead Syndrome"

- Observed in Numerous Cases – What Does A Cytokine Storm Feel Like? The Primary Symptoms of a Cytokine Storm Are High Fever, Swelling and Redness, Extreme Fatigue and Nausea. In Some Cases, The Immune Reaction May Be Fatal.
- Virus Particles Can Last Up To 24 Days on Surfaces
- People Will Get Infected by Delivery Amazon Etc...
- And While Handling Cash
- Airborne Infections Can Occur in Less Than 15 Seconds While Having A Conversation with An Asymptomatic Person
- Airborne Particles Can Infect the Eyes Like Pink Eye
- Virus Can Move Thru Most Masks (P95/ P99 Masks)
- And Can Move Up Sewer Pipes
- Get Plugs for Sinks Etc
- Avoid Crowds
- Lower Your Virus Exposure by Becoming Germaphobe
- Because of relapse, COVID 19 may be worse than SARS in mortality rate, up to 30% dying who are infected.
- As your viral load goes up, you get sicker and sicker. It does not go away.

Chapter 2
The False Flag Hypothesis

Now, let's explore alternative theories for the arrival of the COVID 19 Novel Strain of the Coronavirus. The Corona Virus may merely be a False Flag because which is being used to forcefully quarantine, round up people, and roll out a medical martial law in some regions of China. It's not the number of people affected that makes it a False Flag. It's the **Problem- Reaction- Solution Hegelian Dialectic** nature of the situation that makes it so.

I. **The Problem is the ostensibly the COVID 19 Novel Strain of the Coronavirus.**

II. **The Reaction is the public cry for medical help and protection, economic collapse, general panic, and chaos.**

III. **The Solution is the governmental implementation of medical martial law, and forced roundups to mitigate the alleged bio threat, gun grabbing, transferring people to "hospitals" and FEMA Camps (internment death camps), restrictions on travel, buying, selling, and the dissolution of tangible cash, (the rollout of the digital cashless society), and mandatory poisonous vaccines and RFID microchipping via the ID2020 Alliance.**

Remember, the real function of a bioweapon is to cause terror, confusion, and compliance...not just death. In reading hundreds of comments, I can see that this COVID 19 strain of Corona Virus has been an astounding success. Everyone seems to think they have it all figured out, and yet nobody really knows anything for sure. The perfect bioweapon.

Coronavirus Is Just Another False Flag Designed to Scare People

ORDER OUT OF CHAOS: There's no better example of the deceptive world we live in than the manufacture of a disease, epidemic or pandemic, whether it's the Zika virus or others, such as Ebola, Swine Flu, Bird Flu, SARS or Coronavirus, the newest creation from the church of medicine. All these diseases share a number of common repetitive patterns throughout their deceptive histories. The powers that be want all of us to be very afraid. Right now, there are millions of people scared to death over the outbreak of the Chinese coronavirus.

The latest microbial terrorist is systematically being covered by national and international media companies. It's like watching a finely tuned orchestra production with a master conductor coordinating the timing and cadence of the performance. Fake medical epidemics are unleashed by the powers that be for different reasons. Sometimes stories are put out in the public domain because they are needed to create a diversion for something else that is happening simultaneously. In other situations, these sorts of campaigns are used to scare people out of an area that those in control want to be vacated for some reason.

There's nothing faster, when it comes to scaring the hell out of someone, than showcasing others dressed in hazmat suits on television. Mostly, however, the campaigns are designed to instill fear and reliance by the public on the medical profession. Do yourself and loved ones a huge favor. Disconnect from the morning and evening MSM (FAKE) news programs! They are reporting a never-ending feed of lies and disinformation, designed to scare the hell out of us. Drugs and vaccines are only one small part of the disinformation being unleashed.

False Flag Event

The reason I am calling the Corona Virus a False Flag is because it is being used to forcefully quarantine, round up people, and roll out a medical martial law in some regions of China. It's not the number of people affected that makes it a False Flag. It's the Problem- Reaction- Solution Hegelian Dialectic nature of the situation that makes it so. The Problem is the Corona Virus. The Reaction is the public cry for medical help and protection. The Solution is the governmental implementation of medical martial law and forced round ups to stop the hyped-up bio threat. This

bioweapon virus is being used as an excuse to exterminate civilians and roll out medical martial law. If this scenario goes full live in America, which I think was the plan all along, we'll see a ramping up of police and United Nations presence immediately. To what extent, I don't know. Just look at how the mainstream media is blowing it up. There is AGENDA written all over this bioweapon. They want you frightened. This is not just bio terrorism. This is MK ULTRA style mind control and mass social manipulation

This is Just the Beginning of the Pandemic Ride Analysis

This is just the beginning of the Pandemic scare. This hoax will be rolled out forever to keep people in their houses and strip all of their Constitutional Rights.

Chapter 3

Technocratic Communism is the End Goal of the COVID 19 Pandemic Hypothesis

Ultimately, the end goal of the COVID 19 Pandemic is to bring the world to its knees through quarantine and economic collapse and entrench all people beneath the umbrella of a Technocratic based Communism.

This is why Bill Gates is constantly saying that China is the country we need to be emulating.

Technocratic Gigantism in the Context of Communism is Intrinsically Dangerous

What historical communism proved, what past and modern capitalism confirms, and what leftists in the mould of Varoufakis blithely ignore, is that the concentration of power is a source of mischief, abuse, corruption, no matter the initial motives for gathering all ultimate authority in a single locus.

Historical communism was enacted as yet another highly stratified imperium rather than a distributed network of communes. It turned into a totalitarian regime exactly because the only way to control every aspect of life, in the name of the much-vaunted communal good, is to create a robust hierarchy, with supreme authority trusted at the top.

Whether it is party apparatchiks, professional central bankers, or ostensibly enlightened scientists in charge of managing everyone's life, the underlying assumption is that gigantism is not bad per se. It just is a matter of changing the policies, not the state architecture. This is why today's leftists offer no sustainable solution to the problems of our world. They see the epiphenomena while ignoring the underlying mechanics of institutionalized power. Should they get things their way, history will just repeat itself.

In the capitalist system we witness the symbiotic relationship between the state and the capital owners who control critical infrastructure; "platformarchs" as I call them. This type of **Plutocracy** (government by the wealthy), maintains a two-tier system that has nothing to do with the idealized free market of competing agents over

a level-playing field that is taught in economics textbooks. Platformarchs hold disproportionate power, which they use to mould politics/law in their interests, to undermine their potential competition, and to consolidate their Oligopolistic status. Oligopoly arises when a small number of large firms have all or most of the sales in an industry. Examples of oligopoly abound and include the auto industry, cable television, and commercial air travel. Oligopolistic firms are like cats in a bag. The "free market" only exists in the half spaces left unoccupied by platformarchs; the spaces where concentrated power is not yet focused in.

This is not a decadent form of some true capitalism, a far cry from some supposed golden age of free markets. No, this is a necessary result of the concentration of power: the intertwined agendas of economic and political interests, the control over resources and its weaponization as an instrument for preserving the status quo. Those who have power seek to keep it and expand it. Not controlling some aspect of life can potentially lead to the undoing of the entire edifice. It is why a hierarchical system always has the tendency for absolutism (and why modern representative democracies are, in fact, oligarchies).

Gigantism cannot be turned into some kind of benevolent totalitarianism. That would require a technocratic elite that consists of purely altruistic beings who only care about the common good, assuming there is such a one-size-fits-all good to begin with. We cannot expect such an exalted, omniscient class to come to the fore—and to always be there in the long term—when it is highly unlikely to ever meet a single human who is perfectly non-egoistic. Put bluntly, it is naive to expect people in power to consistently behave unlike their nature and their role.

The other major problem of gigantism is that it can only be instituted in opposition to organic societies; "organic" in the sense of naturally exhibiting solidarity between their members. Organic societies are families and small communities. The opposite of what an empire is all about. Gigantism cannot be communitarian because it would then have to deny itself of the power over those communities.

The Wuhan Chinese Model Ruse Analysis

Bill Gates and company are trying to persuade America to follow the Communist model and go into total shut down of the economy. He is saying, "Look, Communist China locked everyone in their homes and took all their rights away and

they are doing better, so we need to do that." See how Gates is merely endorsing Tyrannical Communism to destroy America? It is all a ruse to get America to give up all its rights.

New World Order Agenda

If I couldn't unite the world into a New World Order using Climate Change fear or an Alien Attack, wouldn't it make sense to try uniting every country into a Communistic NWO under the common threat of a Super Virus?

Social Distancing Will Help Usher in the Communist New World Order

As long as people buy into the COVID 19 fake Pandemic and practice social distancing, and sheltering in place, there is no hope of this world not going into a Communist New World Order. Divide and conquer is happening when you stay home and social distance. This is our last stand.

Bill Gates' Technocratic Plutocracy and the Wuhan Virus

Plutocracy

"A plutocracy or plutarchy is a society that is ruled or controlled by people of great wealth or income. The first known use of the term in English dates from 1631. Unlike systems such as democracy, capitalism, socialism or anarchism, plutocracy is not rooted in an established political philosophy. --Wikipedia

Bill Gates and Barack Obama released a docuseries on Netflix called PANDEMIC in December right before the Wuhan virus was "discovered."

The docuseries pushed the need for the Gates Foundation to receive funding to carry on virus research to prevent the next PANDEMIC!

Bill Gates funded the Wuhan lab in China that released the Wuhan virus and is already selling test kits. Coincidence? Bill Gates was a member of China's Academy of Sciences who built the lab and he was awarded their highest honor.

The Wuhan virus was originally developed at the University of North Carolina by NIH grants approved by the Obama administration in 2012.

The NIH defunded the "dangerous" UNC research so the Communist Chinese scientists left UNC and took their work to the NEWLY BUILT Wuhan lab in 2017 - funded by Gates & pals.

The head of the Harvard Chemistry & Biology department, with ties to Gates & Epstein, was arrested for accepting bribes from the Communists. Did Epstein know what was coming?

The Pirbright Institute, funded by Bill Gates, owns the "patent" on the Coronavirus genetic sequencing. They did simulation testing on a global PANDEMIC in 2018.

The first case of Wuhan virus was reported in China on November 17th. Communists didn't inform WHO or CDC until January 11th. Why?

How does the Wuhan virus spread and how does your body fight it?

Bill Gates & Barack Obama docuseries marketed the need for a global "universal" vaccine to replace all other flu vaccines. I believe it will be designed to deliver a human chip via nanotechnology.

12,469 people in the US died of H1N1 flu (from Mexico) under Obama in 2009, many of them children, because he waited 6 months to do anything & never closed the border.

The media said nothing about the 61 million who were infected in Obama's H1N1 crisis but is creating a huge panic for Trump around US deaths from the Wuhan virus to destroy the US economy before the election. They tried to do the same thing with SARS under Bush in 2003.

Know why the Commies unleashed the SWINE FLU virus in 2009 to infect 61 million and kill 12,469? To convince the US to pass OBAMACARE!

Thousands of people in the US have died from the common flu this year and the media says NOTHING about that - but is creating a huge panic around US deaths from the Wuhan virus.

DR DREW: "A bad flu season is 80,000 dead and we've got 18,000 dead this year from the flu so far and 100 dead from Corona. Which should you be worried about, influenza or Corona? 80,000 versus 100, it's not a trick question. What I have a problem with is the panic and the fact that businesses are getting destroyed and people's lives are getting upended. Not by the virus, but by the panic. The panic must stop, and the press they really need to be held accountable, because they are hurting people."

22 out of the total US deaths from the Wuhan virus have come from ONE nursing home in Kirkland, Washington - and 37 out of 41 US death are in Washington State - the home state of Bill Gates. They aren't telling you that.

Half the staff (70 people) at that nursing home were infected with Wuhan virus. They appear to be the carriers. The nursing home draws employees from a large Chinese population across the border in Canada. I believe Gates placed carriers in vulnerable locations for the narrative and funding.

Another death in Kansas City occurred in a nursing facility owned by the same company who owns the Kirkland facility.

Right after the first deaths were reported in Bill Gates backyard, the Governor declared a national emergency and Congress approved over $8 billion - even though Trump asked for only a quarter of that. Much of the funding will flow to Gates' global "research" partners.

Suddenly Bill Gates says his "foundation" will offer in-home testing kits where you swab your nose with a Q-Tip and send it to his labs. How convenient and timely! I think Gates developed the home-testing kits in order to secure access to all our DNA!

19 out of the 21 who tested positive on the Princess Cruise ship were CREW MEMBERS. Meaning the crews are carriers and are infecting passengers. Who put them there?

The virus started in South Korea because the leaders of a "doomsday" cult went to Wuhan, China and went back and infected 8,000 of their members. Who paid them to do that? South Korean President Moon Jae-in allowed 5 million Chinese to enter the country after the initial outbreak!

In Italy, the virus started in a hospital filled with sick elderly people in a small town in northern Italy -- spread by a 38-year old carrier from Wuhan, who recovered.

Who put him there? Over 100,000 Chinese migrants from Wuhan own & work in the textile/leather industry in Northern Italy.

In 2019, Italy and Communist China signed an agreement to jointly promote China's Belt & Road Initiative. Partners in Wuhan Virus!

ER doctors say socialized medicine is so bad in Italy that people avoid clinics and go straight to the hospital where they are housed with the elderly & sick - that's why the virus spread so fast. Under Italy's socialist healthcare, if you're 80+, you can be denied treatment & coverage. Now you know why elderly are dying.

Iran's leaders suddenly became infected after Iran's foreign leader met with John Kerry in Munich and laughed about the Wuhan virus on camera. Almost like he was told to go home, create panic and spread the virus.

Iran, like Italy, a partner in China's Belt and Road initiative, continued flights between Iran and China. The first outbreak was in the city of Qom where most of the Chinese projects are set up.

WHO: 4 countries with economic and political ties (Communist China, South Korea, Italy, Iran) facilitated virus spread around the world. Italy, Iran, South Korea, and China, home to 90% of virus cases, are ALL partners in the Communist Party's One Belt, One Road scheme.

All those videos out of Communist China of people dying on the streets and thrashing bodies on gurneys, were fake and sent out by Communist propagandists.

Thousands of people from Wuhan China have protested against the Communist Party's plans to build a waste "incinerator" plant in their city. They are silent now!

Real videos show Hong Kong freedom fighters being rounded up in handcuffs and sent off to the "hospital" where it's likely their organs are harvested, and they are cremated.

Real videos show elderly people in Communist China trapped in buildings and left to die with no food.

Real videos show that Communist China installed major NEW surveillance cameras and technology to monitor people on the street and in their offices since the virus was released.

Real videos show the Chinese people yelling "IT'S ALL FAKE" from high rises as the Communists pretend to care for them on the streets below.

The Chinese are now being forced to use an app which tells them when they can come and go and tracks their every move. How did the Communists suddenly develop this technology in a month? This was part of the plan and put in place while they were under "quarantine."

After Trump closed travel from Communist China in January, the Chinese blamed the US and threatened to hold back our pharmaceuticals unless we opened travel back up again. They didn't expect him to do that - that thwarted their plans to seed the US with more cases.

I believe the virus is no more dangerous than the common flu - for healthy people - but has been engineered to be highly infectious and impact the elderly & sick. Thankfully, it is NOT widely affecting children & young adults like pandemic flu does.

I believe the virus was unleashed by the Communist Party to scare the Chinese people back into their homes and stop the Hong Kong & Taiwanese pro-freedom protests.

I believe the virus was unleashed by the Communists to crash the US economy & drive people away from Trump rallies.

I believe the virus was unleashed to help the Communists round up dissidents, assert global control and to cull the elderly and weak.

I believe the virus was unleashed to scare the American people into accepting SOCIALIZED medicine and total vote-by-mail.

ALL respiratory viral outbreaks peak in March and end in April. I believe this one too.

The SARS Coronavirus panic dropped the market 20% in March 2003, under Bush, and it came roaring back even higher by July. In other words, they've done this before to a Republican administration before an election.

Wuhan virus is impacting less than 1% of the population in areas of "high" infection: China (.12%) S. Korea (.21%) Italy (.037%) - although the fake news media makes it sounds like 50% of the population is sick.

Why are so many leaders testing positive for Wuhan Virus? Because Communist China brought the scheme to Davos in January!

The fake news reported that Brazil's conservative President, Bolsonaro, tested positive for Wuhan virus. His son says that's a LIE. So far, it appears ONLY left-wing leaders and celebrities are testing positive for Wuhan virus. Sounds like collusion to me!

SOUTH KOREA FACTS: Of 179,160 tests completed, 96% tested negative, 4% positive.

51 people died or .69% of confirmed cases.

Now the fake news is trying to distance Wuhan from the virus -- and so is Communist China. That means we're right over the target.

The New York Times is calling people "racist" for using the term "Wuhan Virus." I guess they forgot that's what they used to call it before their masters in the Communist Party told them not to!

Suddenly the liberal Governor of New York says the State will start selling their own brand of hand sanitizer made by prison inmates! How long was that in the works?

Did you know WHO says 67% of ALL people under 50 in the WORLD are infected with HSV-1 (herpes) virus? Many NEVER show symptoms. Think about that. Are we permanently quarantined for herpes virus? NO.

Democrats hope to hype the Wuhan virus for months to destroy the economy, bring down the market, shut down Trump rallies, gatherings, debates, the conventions & force ALL voting by mail or phone! They basically said that tonight on MSNBC & CNN. Democrats are masters at rigging absentee ballots!

UPDATE 3/12/20: I heard a few things today from sources I trust I thought you should know:

1) South Korea has already tested 200,000 people and is testing 20,000 people per day and finding a fatality rate of less than .7% - which I trust.

2) The reason Trump shut down travel from the EU is because the newest Wuhan virus cases in America are from travelers who have visited the EU. The EU has NOT been shutting down its borders to Communist China like we have since 1/31 - in fact the EU is under siege by millions of migrants from who knows where clamoring to invade Greece and Italy.

3) The majority of people who are dying from the Wuhan virus are 80+ with underlying conditions such as emphysema, heart disease or cancer. Young & healthy people have a very low risk - but they CAN transmit it to their elderly parents & grandparents. So, be vigilant. The average age of those who succumb to the Wuhan virus has been confirmed at 81 years old.

4) Many deaths in Communist China appear to come from elderly residents in Hubei province who received NO care at all and were left to fend for themselves. The reason the Wuhan Virus impacts the elderly & vulnerable is simply because their immune systems are not as strong.

5) Many cases in Communist China were actually infected healthcare workers who were not properly safeguarded from patients and ended up re-infecting more patients. China told their healthcare workers there was no contagion problem for weeks, when there was.

6) The same is true in Washington State and California - nursing home employees & cruise ship crew members are spreading the virus to people - not the other way around.

7) As I mentioned many times, historically, Coronavirus outbreaks PEAK in March and start to die out by the end of April. Coronaviruses like cooler drier weather. A second round can start up again in October after a summer hiatus.

8) Of those tested who were positive for ANY respiratory virus, ONLY 2% tested positive for Wuhan. Meaning 98% have the common flu.

9) In order to STOP THE SPREAD in America, during the peak transmission months of March and April, President Trump ASKED businesses, sports teams and major events to suspend activity for 8 weeks to reduce transmission during this peak time. Makes perfect sense to stop it in its tracks and lower the bell curve. What if the shutdown is NOT about Wuhan Virus at all?

10) The bright side of the panic is that liberals are suddenly wanting to buy guns, close borders, build walls, honor elders, cut taxes, stop human trafficking and vaccinate their children.

Chapter 4

Agenda ID2020 is the Real Coronavirus COVID-19 Pandemic Threat Hypothesis

What is the infamous ID2020 Alliance? It is an alliance of public-private partners, including UN agencies and civil society. It's an electronic ID program that uses generalized vaccination as a platform for digital identity.

It seems, the more there is written about the causes of the Coronavirus – the more the written analyses are overshadowed by a propaganda and fear-mongering hype.

Questions for the truth and arguments for where to look for the origins and how the virus may have spread and how to combat it, are lost in the noise of wanton chaos. But isn't that what the "Black Men" behind this intended pandemic want – chaos, panic, hopelessness, leading to human vulnerability – a people becoming easy prey for manipulation?

Today WHO declared the coronavirus COVID-19 a "pandemic" – when there is not the slightest trace of a pandemic. A pandemic might be the condition, when the death to infection rate reaches more than 12%. In Europe, the death rate is about 0.4%, or less. Except for Italy, which is a special case, where the peak of the death rate was 6% (see below for further analysis).

China, where the death rate peaked only a few weeks ago at about 3%, is back to 0.7% – and rapidly declining, while China is taking full control of the disease – and that with the help of a not-spoken-about medication developed 39 years ago by Cuba, called "Interferon Alpha 2B (IFNrec)", very effective for fighting viruses and other diseases, but is not known and used in the world, because the US under the illegal embargo of Cuba does not allow the medication to be marketed internationally.

WHO has most likely received orders from "above", from those people who also manage Trump and the "leaders" (sic) of the European Union and her member countries, those who aim to control the world with force – the One World Order.

This has been on the drawing board for years. The final decision to go ahead NOW, was taken in January 2020 at the World Economic Forum (WEF) in Davos – behind very much closed doors, of course. The Gates, GAVI (an association of

vaccination-promoting pharmaceuticals), Rockefellers, Rothschilds et al, they are all behind this decision – the implementation of Agenda ID2020 – see below.

After the pandemic has been officially declared, the next step may be – also at the recommendation either by WHO, or individual countries, "force vaccination", under police and/or military surveillance. Those who refuse may be penalized (fines and / or jail – and force-vaccinated all the same).

If indeed force-vaccination will happen, another bonanza for Big Pharma, people really don't know what type of cocktail will be put into the vaccine, maybe a slow killer, that acts-up only in a few years – or a disease that hits only the next generation – or a brain debilitating agent, or a gene that renders women infertile …. all is possible – always with the aim of full population control and population reduction. In a few years' time, one doesn't know, of course, where the disease comes from. That's the level of technology our bio-war labs have reached (US, UK, Israel, Canada, Australia…).

Another hypothesis, at this point only a hypothesis, but a realistic one, is that along with the vaccination – if not with this one, then possibly with a later one, a nano-chip may be injected, unknown to the person being vaccinated. The chip may be remotely charged with all your personal data, including bank accounts – digital money. Yes, digital money that's what "they" are aiming at, so you really have no control any more over your health and other intimate data, but also over your earnings and spending. Your money could be blocked or taken away – as a 'sanction' for misbehavior, for swimming against the stream. You may become a mere slave of the masters. Comparatively, feudalism may appear like a walk in the park.

It's not for nothing that Dr. Tedros, DG of WHO, said a few days ago, we must move towards digital money, because physical paper and coin money can spread diseases, especially endemic diseases, like the coronavirus. A precursor for things to come. – Or for things already here? – In many Scandinavian countries cash is largely banned and even a bar of chocolate can be paid only electronically.

We are moving towards a totalitarian state of the world. This is part of Agenda ID2020 – and these steps to be implemented now – prepared since long, including by the coronavirus computer simulation at Johns Hopkins in Baltimore on 18 October 2019, sponsored by the WEF and the Bill and Melinda Gates Foundation.

Bill Gates, one of the chief advocates of vaccinations for everybody, especially in Africa – is also a huge advocate of population reduction. Population reduction is among the goals of the elite within the WEF, the Rockefellers, Rothschilds, Morgens

– and a few more. The objective: fewer people (a small elite) can live longer and better with the reduced and limited resources Mother Earth is generously offering.

This had openly been propagated already in the 1960s and 70s by Henry Kissinger, Foreign Secretary in de Nixon Administration, a co-engineer of the Vietnam war, and main responsible for the semi-clandestine bombing of Cambodia, a genocide of millions of unarmed Cambodian civilians. Along with the CIA-Kissinger engineered coup on 9/11, 1973, in Chile, killing the democratically elected Salvador Allende and putting the military dictator Pinochet in power, Kissinger has committed war crimes. Today, he is a spokesman (so to speak) for Rockefeller and their "Bilderberger Society".

More than Just a Virus

Two weeks after the computer simulation at Johns Hopkins Medical Center in Baltimore, Maryland, that "produced" (aka simulated) 65 million deaths (!), the COVID-19 virus first appeared in Wuhan. By now it is almost certain that the virus was brought to Wuhan from outside, most likely from a bio-war lab in the US. See also this and this.

What is the infamous ID2020? It is an alliance of public-private partners, including UN agencies and civil society. It's an electronic ID program that uses generalized vaccination as a platform for digital identity. The program harnesses existing birth registration and vaccination operations to provide newborns with a portable and persistent biometrically linked digital identity. GAVI, the Global Alliance for Vaccines and Immunization, identifies itself on its website as a global health partnership of public and private sector organizations dedicated to "immunization for all". GAVI is supported by WHO, and needless to say, its main partners and sponsors are the pharma-industry.

The ID2020 Alliance at their 2019 Summit, entitled "Rising to the Good ID Challenge", in September 2019 in New York, decided to roll out their program in 2020, a decision confirmed by the WEF in January 2020 in Davos. Their digital identity program will be tested with the government of Bangladesh. GAVI, the

Vaccine Alliance, and "partners from academia and humanitarian relief" (as they call it), are part of the pioneer party.

Is it just a coincidence that ID2020 is being rolled out at the onset of what WHO calls a Pandemic? – Or is a pandemic needed to 'roll out' the multiple devastating programs of ID2020?

Here is what Anir Chowdhury, policy advisor of the Bangladesh government program, has to say:

"We are implementing a forward-looking approach to digital identity that gives individuals control over their own personal information, while still building off existing systems and programs. The Government of Bangladesh recognizes that the design of digital identity systems carries far-reaching implications for individuals' access to services and livelihoods, and we are eager to pioneer this approach."

Wow! Does Mr. Anir Chowdhury know what he is getting into?

Back to the Pandemic and the panic. Geneva, the European seat of the United Nations, including the headquarters of WHO, is basically shot down. Not unlike the lock-down that started in Venice and later expanded to northern Italy until a few days ago – and now the lock-down covers all of Italy. Similar lock-down may soon also be adopted by France – and other European vassal states to the Anglo-Zionist empire.

Numerous memoranda with similar panic-mongering contents from different UN agencies in Geneva are circulating. Their key message is – cancel all mission travel, all events in Geneva, visits to the Palais des Nations, the Geneva Cathedral, other monuments and museums. The latest directives, many agencies instruct their staff to work from home, not to risk contamination from public transportation.

This ambiance of panic and fear – outstrips any sense of reality, when the truth doesn't matter. People can't even think any more about the causes and what may be behind it. Nobody believes you (anymore), when you refer to Event 201, the coronavirus simulation, the Wuhan Military Games, the closing last August 7, of the high-security biological war lab at Fort Detrick, Maryland…. what could have at one point been an eye opener for many, today is sheer conspiracy theory. The power of propaganda. A destabilizing power – destabilizing countries and people, destroying economies, creating hardship for people who may lose their jobs, usually the ones who can least afford it.

Also, at this time it becomes increasingly important to remind people that the outbreak in China was targeting the Chinese genome. Did it later mutate to transgress the 'borders' of Chinese DNA? When did that happen, if it happened? Because at the beginning it was clear that even the infected victims in other parts of the world, were to 99.9% of Chinese descent.

What happened later, when the virus spread to Italy and Iran, is another issue, and opens the way to a number of speculations.

(i) There were various strains of the virus circulated in sequence – so as to destabilize countries around the world and to confound the populace and media, so that especially nobody of the mainstream may come to the conclusion that the first strain was targeting China in a bio-war.

(ii) In Iran, I have a strong suspicion that the virus was an enhanced form of MERS (Middle East Respiratory Syndrome, man-made, broke out first in Saudi Arabia in 2012 , directed to the Arabic genome) – which was somehow introduced into government circles (by aerosol spray?) – with the goal of "Regime Change" by COVID19-caused death. Its Washington's wishful thinking for at least the last 30 years.

(iii) In Italy – why Italy? – Maybe because Washington / Brussels wanted to hit Italy hard for having been officially the first country to sign a Belt and Road (BRI) accord with China (actually the first was Greece, but nobody is supposed to know that China came to the rescue of Greece, destroyed by Greece's brothers, the EU members, mainly Germany and France).

(iv) The hype about the high death to infection rate in Italy, as of the time of this writing: 10,149 infections vs. 631 deaths = death rate of 6.2 (comparatively Iran: 8042 infections vs. 291 deaths = 3.6 death rate). The death rate of Italy is almost double that of Iran and almost ten-fold that of average Europe. (Are these discrepancies the result of failures in the establishing reliable data pertaining to "infections", see our observations pertaining to Italy below).

Why? – Was is Italy being affected with virus panic? Was there a much stronger strain introduced to Italy?

The common flu in Europe in the 2019 / 2020 season, has apparently so far killed about 16,000 (in the US the death toll is, according to CDC between 14,000 and 32,000, depending on which CDC website you look at).

Could it be that among the Italian coronavirus deaths there were also common flu victims, as the affected victims are mostly elderly with respiratory preconditions? Also, symptoms are very similar between coronavirus and the common flu, and nobody questions and checks the official authorities' narrative?

Maybe not all the coronavirus strains come from the same laboratory. A journalist from Berlin of Ukrainian origin, told me this morning that Ukraine is host to some 5 high security US bio-war labs. They test regularly new viruses on the population – yet, when strange diseases break out in the surroundings of the labs,

nobody is allowed to talk about it. Something similar, she says, is happening in Georgia, where there are even more Pentagon / CIA bio-war labs – and where also new and strange diseases break out.

All of this makes the composite picture even more complicated. Overarching all is this super hype is profit driven, the quest for instant profit, instant benefits from the suffering of the people. This panic making is a hundred-fold of what it's worth. What these kingpins of the underworld, who pretend to run the upper world, perhaps miscalculated, is that in today's globalized and vastly outsourced world the west depends massively on China's supply chain, for consumer goods, and for intermediary merchandise – and, foremost for medication and medical equipment. At least 80% of medication or ingredients for medication, as well as for medical equipment comes from China. The western China dependence for antibiotics is even higher, some 90%. The potential impacts on health are devastating.

During the height of the COVID-19 epidemic China's production apparatus for everything was almost shut-down. For deliveries that were still made, merchandise vessels were regularly and categorically turned back from many harbors all around the world. So, the west has tricked itself into a shortage-of-everything mode by waging a de facto "economic war" on China. How long will it last? – Nobody knows, but China's economy which was down by about half, has rapidly recovered to above 80% of what it was before the coronavirus hit. How long will it last to catch up with the backlog?

What is behind it all? – A total crackdown with artificially induced panic to the point where people are screaming "help, give us vaccinations, display police and military for our security" – or even if the public despair doesn't go that far, it would be easy for the EU and US authorities to impose a military stage of siege for "health protection of the people". In fact, CDC (Center for Disease Control in Atlanta), has already designed harshly dictatorial directives for a "health emergency".

Along with forced vaccination, who knows what would be contained in the cocktail of "mini-diseases" injected, and what their long-term effects might be. Similar to those of GMOs, where all sorts of germs could be inserted without us, the commons, knowing?

Might the RFID Chip be included in the Coronavirus Vaccination, unbeknownst to each willing victim?

We may indeed be just at the beginning of the implementation of ID2020 – which includes, forced vaccination, population reduction and total digital control of

everybody – on the way to One World Order – and global financial hegemony – Full Spectrum Dominance, as the PNAC (Plan for a New American Century) likes to call it.

A windfall for China. China has been purposely targeted for "economic destruction", because of her rapidly advancing economy, an economy soon to overtake that of the now hegemon, the US of A, and because of China's strong currency, the Yuan, also potentially overtaking the dollar as the world's main reserve currency.

Both occurrences would mean the end of US dominance over the world. The coronavirus disease, now in more than 80 countries, has crashed the stock markets, a decline of at least 20% over the last few weeks – and rising; the feared consequences from the virus of an economic slow-down, if not recession, has slashed petrol prices within about two weeks almost in half. However, without China's central bank interference, the Yuan's value vis-à-vis the dollar has been rather stable, at around 7 Yuan to the dollar. That means, the Chinese economy, despite COVID-19, is receiving still much trust around the globe.

Advice to China – buy all the US and European corporate shares you can at current rock-bottom prices from the stock markets that collapsed by a fifth or more, plus buy lots of oil futures. When the prices recover, you have not only made billions, probably trillions from the west, but you also may own or hold significant and influence-yielding amounts of shares in most of the largest US and European corporations – and will be able to help call the shots of their future endeavors.

There is however, one little silver lining oscillating at the horizon full of dark clouds. It could miraculously be an awakening of consciousness of a critical mass that could put an end to it all. Although, we seem to be far from such a miracle, somewhere in a hidden corner of our brain, we all have a spark of consciousness left. We have the spiritual capacity to abandon the disaster path of western neoliberal capitalism, and instead espouse solidarity, compassion and love for each other and for our society. That may be the only way to break the gridlock and doom of western egocentric greed.

A Brief ID2020 Alliance Analysis

- There's no PANDEMIC.
- There's only the elite against US! ID2020 is the ultimate agenda for the NWO.

- One World Government
- One World Currency (Digital)
- One World Religion
- One World Leader
- The cabal mafia are battling for dominance. The United States is a major obstacle.
- Don't give in to the agenda.
- Fear is their weapon because we OUTNUMBER them.
- The current talk of Corona Virus, 5G, Vaccines, and World War are all a part of the same Agenda 21/Agenda 2030 United Nations Depopulation Plan.
- Big pharma and Microsoft are teaming up in something called the ‘id2020 alliance’ that will combine vaccinations with implantable microchips to create your digital id to track and control your every move.
- COVID 19 was merely means to an end, all along.
- Every bit of this drama was scripted and executed using media compliance as a way of injecting the population with virus fear.
- The common flu is being mislabeled and categorized as COVID 19. The flu can kill, yes. This is not any new thing.
- Big pharma and Microsoft are teaming up in something called the ‘ID2020 alliance’ that will combine vaccinations with implantable microchips to create your digital id
- The ID2020 Alliance, as it’s being called, is a digital identity program that aims to “leverage immunization” as a means of inserting tiny microchips into people’s bodies. In collaboration with the Global Alliance for Vaccines and Immunizations, also known as GAVI, the government of Bangladesh and various other “partners in government, academia, and humanitarian relief,” the ID2020 Alliance hopes to usher in this mark of the beast as a way to keep tabs on every human being living on Earth.
- The ID2020 Alliance has launched a new digital identity program at its annual summit in New York, in collaboration with the Government of Bangladesh, vaccine alliance Gavi, and new partners in government, academia, and humanitarian relief.
- Big Pharma is officially partnering with the tech industry to pair “immunization” with digital biometrics, meaning humans will soon be microchipped, tracked, and ultimately controlled through a global identification matrix.

For years we’ve been watching as Microsoft founder Bill Gates, now retired from the company he founded, use his billions to give ‘free vaccinations ‘to people in third

world countries. Now Bill has become a founding partner in another company, this one is called the ID2020 Alliance, and its goal is to give every human being on Earth a digital id. How do they plan on accomplishing this feat? By combining mandatory vaccinations with implantable microchips. Genius, isn't it? And coming soon to a theater near you, as the saying goes.

"And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six." Revelation 13:16-18 (KJV)

So now you know what Bill Gates and his wife Melinda were really doing over the past 10 years, travelling to third world countries and giving 'free vaccinations' to the poor, downtrodden natives. Those 'free vaccinations 'was research and a live testing lab to conduct the necessary experiments required to form ID2020. And as you will see today, this unholy hybrid of vaccinations and implantable microchips is already happening in Bangladesh, soon it will be Boston. A page on the Gates Foundation website says that Bill and Melinda have so far invested over $2.5 billion dollars to this project, with no end in sight. Can the man who put the world behind a personal computer now put a vaccination microchip digital ID into the global population? Bill Gates is absolutely positive he can, and indeed is well on his way to achieving that goal.

"Let no man deceive you by any means: for that day shall not come, except there come a falling away first, and that man of sin be revealed, the son of perdition; Who opposeth and exalteth himself above all that is called God, or that is worshipped; so that he as God sitteth in the temple of God, shewing himself that he is God." 2 Thessalonians 2:3,4 (KJV)

We have been warning you about this for the past 10 years, and now it is happening. Are you ready for what comes next? I hope you are. Keep looking for that Blessed Hope and thank God it comes before the time of Jacob's trouble. If only my friend, Carl Sanders, the man who first revealed the inner workings of the team that created the RFID microchip, had lived long enough to see this day.

Vaccines now being used to harvest biometric identities of everyone.

Big Brother merges with Big Pharma

FROM NATURAL NEWS:

The ID2020 Alliance, as it's being called, is a digital identity program that aims to "leverage immunization" as a means of inserting tiny microchips into people's bodies. In collaboration with the Global Alliance for Vaccines and Immunizations, also known as GAVI, the government of Bangladesh and various other "partners in government, academia, and humanitarian relief," the ID2020 Alliance hopes to usher in this mark of the beast as a way to keep tabs on every human being living on Earth.

Similar to how cattle are marked with ear tags, this globalist alliance wants all humans to be "vaccinated" with digital tracking chips that will create a seamless monitoring system for the New World Order to manage the populations of the world with ease.

ID2020 Digital Cashless Control

When the COVID 19 Vaccines roll out, they will have the RFID chip inside it as an indicator that you received the COVID 19 Vaccine. Of course, in that instant, all your purchase and selling power will immediately become digital. When money goes digital, and that is, in part, what this it is all about. That means full control. No savings money hidden away in your house. If you get in trouble of any kind, they can take ALL of your money. They just switch off your RFID chip. They will know who, what, where, everyone is, what they do, what they spend money on, not to mention, the neatly little implanted chip will handle all of your everyday life expenditures.

They will track down anyone who does not have it. For there cannot be freedom under their system, especially people growing their own food or sharing it. This is BIG. Every single one us must fight it, entrench, refuse, or its game over: mind control, population control, water control, land control.

Say no. Say you don't need their money. Say we will help each other. Screw off, Government. Teach each other and learn to live again. There are amazingly smart people in this world. They will help. Everyone will help. We have everything we need when we stand apart from Technocracy. There are no more options left. We are shifting into the New World Order.

Start growing your garden. Start planning ahead. They are going to make things so hard for us with riots, food shortages, 5G, segregation, division, economic collapse. They want us begging for a digital money system. That is what they want. They create a problem, then we react, and then they offer the solution. They are here with the solution: A Communistic Cashless Tyranny. The Hegelian Dialectic...we fall for it

every time. But not this time. The whole world is on lock down. We cannot afford to fall for it.

This is the End Game. We Stand or Fall, right here.

Don't Miss the Pandemic...Coming to a Theater Near You Soon!

It's coming to the surface that hundreds of health professionals are reporting empty hospitals, no COVID 19 Pandemic, and common respiratory illnesses being mislabeled as some super virus.

Meanwhile, the media plays up this virus, contradicting what modern health professionals are actually reporting, boots on the ground. Personal cell phone videos are coming out showing empty beds, zero people in line for COVID 19 testing, and no real extra deaths occurring apart from common flu related respiratory illness.

We are forced to consider now how much of this Pandemic is Hollywood style media hype and dramatization...just the common flu season being amplified to insane proportions.

Up to 65,000 die of the flu each year, and this C-19 has only struck a few thousand, by comparison. Or, more likely, a few thousand naturally die from the flu and are being mislabeled as super virus related.

Additionally, 80% of the COVID 19 tests have been acknowledged as false positives, where there is no correlation between C-19 and the patient's symptoms, even after 30 days.

This reeks of:

1.) **AGENDA 21: The United Nations Depopulation Campaign**

2.) **The ID2020 Alliance: The Bundled Vaccine of COVID 19 Cure with RFID chip**

The Real Virus is the Fear, and its Spreading Like a Virus...

So, I was sitting up late at night, recently, and I was struggling to think of a chilling Pandemic story for this new FICTION book I am working on.

My new FICTION book talks about how the Luciferian Elite, who own the media, could easily write an ongoing narrative about a killer super virus to create mass terror and fear in order to force people into submission and compliance to their plans...their plans to Vaccinate and RFID chip the world's population. (The ID2020 Alliance)

It would need to be a FICTION story so compelling that people would begin to even call the common cold the COVID 19 Pandemic.

Then in fatigue, and almost ready to call it a night, I looked down...a there was my answer already there on my typewriter, made by Corona.

Eugenicist Bill Gates Advances World Depopulation

Bill Gates, other Plutocratic Eugenicists, and the power elite want to have a controlled world in which people range from middle-class to wealthy, with everyone a good producer and a big consumer, so the world economy will keep humming along with no surprises and no untidiness. They are the ultimate control freaks. In order to achieve this, they intend to depopulate billions of "unnecessary eaters". Let that sink in.

Masonic Psyop Hypothesis

And yet another theory is that this whole Corona thing is Masonic psyop. This harkens back to my original hypothesis: A good bioweapon, whether truly lethal or not, instills fear, confusion, chaos, and ultimate compliance. So far, this bioweapon satisfies that basic criterion.

33 Degree Illuminati Virus

Guess who is behind this psyop?

Chapter 5

Analysis of Hollywood, Crisis Actors, and Staged Fake Hospitals Promoting Fake COVID 19 Pandemic

Sensationalism and Media Hype

Don’t buy the media hype over the new China virus

A CNN reporter broadcasts from Wuhan, China, on the recent viral outbreak. There is nobody near who could possibly infect him -— unless the cameraman has Guinness Book of Records coughs and sneezes. So why does he insist on wearing a blue surgical mask while talking?

It’s called “drama,” which is badly needed, because there appears to be nothing very special about this outbreak of the 2019-nCoV or Wuhan -virus. It should actually be called the DvV, or Déjà vu Virus, because we have been through these hysterias before. Over and over. Heterosexual AIDS, Ebola repeatedly, the H1N1 swine flu that was actually vastly milder than the regular flu and, especially, severe acute respiratory syndrome (SARS) in 2003.

Once you start debunking mass hysteria over outbreaks, it gets easy, because the same patterns repeat themselves.

The best remedy for all epidemic hysteria is perspective. How is this new outbreak different and thus potentially more dangerous from other diseases we have dealt with in the past or are dealing with now?

Wuhan is repeatedly labeled “deadly” — but so is every other -virus most people know about. But especially deadly? Nearly 600 cases have been confirmed with at least 17 reported deaths.

An infected American is reportedly doing well. It’s probably true that the death toll is understated, but it’s guaranteed the infection number is. Probably as with, say,

flu, the vast majority of those infected have such slight symptoms, they don't seek medical attention.

For that reason, a comparison to the US flu death rate is also very difficult. As a share of hospitalizations, the regular flu death rate is 8.5 percent to 17 percent, according to the Centers for Disease Control and Prevention — considerably higher than for Wuhan. But counting all -estimated illnesses, reported and estimated, it's much lower.

What we can say for sure is that Wuhan will be a lot worse in China, simply because health care there is vastly inferior. It appears that, like flu, Wuhan usually kills through -often treatable secondary infections. Well, treatable in the West. You'd be surprised at how many potentially deadly diseases (malaria, TB) Americans get that wreak havoc in much of the world but kill essentially none of us.

It also appears those most likely to die of Wuhan virus fit the same profile as flu fatalities: people over 65, those with compromised immune systems and those with serious pre-existing conditions. Two of the 17 Wuhan dead were 89-year-olds with pre-existing conditions; the youngest was 48 and suffering from diabetes and a stroke.

Contagiousness is highly important, of course. But so far, there is no evidence that Wuhan, first -reported more than three weeks ago, is more contagious than -influenza or spreads differently.

Those are the important factors; everything else is noise and tinfoil-hat paranoia.

We are breathlessly told it's spread from human to human. Again, most of the contagious diseases we think of are spread -between humans, with some -exceptions, such as rabies.

It's inherently bad because it's new, we're told. So were swine flu and SARS.

Chinese health officials warned it could mutate further to either become more deadly or more contagious. Same was said about the aforementioned outbreaks. Actually, viruses usually mutate to become less deadly, to preserve the host body and hence themselves.

The media are correct in saying the closest comparison here is SARS. It also was first reported in China and was what's called a coronavirus. But while they want you to remember SARS as akin to the Black Death with cries of "Bring out your

dead!" fact is, there was a grand total of only 8,098 cases, of whom 774 died. Then the disease simply disappeared. More than 7,000 of those cases and about 650 of the deaths occurred just in mainland China and Hong Kong. The United States had just 75 cases and zero deaths.

By contrast, the CDC estimates about 80,000 Americans died of flu two seasons ago.

So, if you want, buy a (probably worthless) surgical mask to play "twins" with those "courageous" TV newsmen. Or you may consider that flu shots are still available.

Crisis Actors

Crisis actors are professional actors used by government agencies and/or the mainstream media to deceive the public with portrayals of trauma and suffering. Specifically, they act as victims or witnesses in staged school shootings hoax terrorist attacks, and pandemics

Report of Empty Beds and Fake Hospital at Anniston's Alleged COVID-19 Quarantine Dorm

"If COVID-19 patients had arrived in Anniston this week, each would have lived in a room with a single bed, a TV, a coffee pot and a minifridge. It's like a little hotel room. It's Thursday afternoon and I'm standing in one of those rooms, in the very building the Center for Domestic Preparedness set aside to receive coronavirus patients, back when housing them here was in the plan.

There's no one here except me, Star photographer Stephen Gross, CDP spokesman Richard Brewer, and down the hallway, some of the housekeeping staff. A vacuum cleaner stand in one hallway, a mop-bucket in the other. Nobody here is wearing a mask.

"No," Brewer said when I called him earlier Thursday to again ask if coronavirus patients are anywhere on the CDP site. "No COVID-19 patients. Emphatically, no."

CBS Caught Using Footage from An Italian Hospital in Segment On New York COVID-19 Outbreak

Jim Hoft at The Gateway Pundit basically broke this story about how CBS manipulated footage of an emergency room which was supposedly in New York but was actually footage from an emergency room in ITALY!

Hoft wrote- "CBS News painted a dire picture from New York City this week in their coronavirus coverage. On Wednesday morning CBS aired this footage from a New York hospital."

The footage matches SKY News video from inside an Italian hospital released on March 19.

Now, Hoft and many others reported that the SKY video is from March 22, but the video was clearly released on March 19.

The Sky News article came out on March 22.

That being said, the bottom line is that CBS deliberately used footage to sensationalize their report.

Crisis Actors in the Media

Crisis Actors are typically used by the mainstream media to simulate Pandemics, as well as shootings, and military war situations. They depend upon sensationalism to get viewers. Numerous images have arisen online showing hospitals overrun with alleged COVID 19 victims, but these same images can be traced to previous Pandemic events, and even Hollywood movies about Pandemics. These images and video feed are merely tapped from other sources and pieced together by news editors to simulate a COVID 19 Pandemic, now.

Scene from the 2017 Movie, Unlocked

MSMS News, in 2020, showed a scene of coffins lined up in a huge auditorium and claimed it was COVID 19 victims from Italy. But. In reality, the scene was actually

from the 2017 Movie, ***Unlocked***, playing on Showtime in 2020. The media is all smoke and mirrors.

Crisis Actors and New York's Fake Overwhelming Coronavirus Deaths and Use of Freezer Trucks for The Bodies

And no one asked one question? Why do we need freezers? That's why there are morgues in the basement. This whole idea of NY using forklifts to haul bodies into a freezer is simply trauma-based mind control. It is shock television to make people think these hospitals are overwhelmed. The forklift hauls one body at a time? The whole scenario is absurd. I'm pretty sure this isn't proper protocol to get rid of a body even thru a "Plandemic", and if this was that bad, shouldn't everyone be in hazmat suits. Horrible crisis acting.

No Extraordinary Deaths or People at the Hospitals

When you actually drive around various big cities, you see that there are no extra ambulances, no extra people, no commotion, no ERs filled with people, no extra anything, because there is no COVID 19. Videos coming from hospitals that are not Hollywood produced media news productions show empty beds, and nothing happening. Healthcare workers are actually being laid off because they have so little work because everyone is, by and large, healthy. The NHS Urgent Care Center is desolate. Absolutely no patients are there, Nothing. No COVID 19 victims at all. I fact, the NHS Urgent Care Center is closed.

MK ULTRA World Mind Control

Conclusion:

This entire COVID 19 "Plandemic" is nothing but worldwide MK ULTRA Trauma Based Mind Control.

A Circus of Deception: The News is Filled with Fake Crisis Actors

Just watch the mainstream media. The phoniest actors ever claiming that the COVOD 19 is making their lives horrible. It is a circus of deception.

The Media Is Creating A World of Hypochondriacs

The media has everyone afraid to touch anything without gloves, or even eat food until it’s been heated to kill the fake virus. The media is making everyone paranoid and fearful. They keep announcing the death toll every day to perpetuate the phony narrative of pandemic.

A Pandemic on Cue and Scarcity by Design: Celebrities Flaunting Their COVID 19 Illness

If it was a real pandemic, Hollywood stars would not be leaping up and down to announce that they have COVID 19. It is a media driven hoax and being hyped just like a big blockbuster movie is hyped by Hollywood stars. They are selling this Pandemic too hard.

Netflix Show, My Secret, Terrius Predicts the Corona Pandemic

MY SECRET, TERRIUS, a show which came out in 2018, has taken the internet by storm as Netflix subscribers have spotted a key scene in episode 10 which appeared to pre-empt the ongoing coronavirus pandemic.

Netflix is no stranger to bringing series from all corners of the globe to subscribers across the planet. My Secret, Terrius is no different as the South Korean drama is currently available for fans to stream in the UK and the USA. While it may not be a household title, the series began trending on social media this week as fans spotted an eerie scene featuring coronavirus.

My Secret, Terrius' synopsis from Netflix reads: "A secret agent who detaches himself from the world after a failed operation tries to unravel the mystery behind a neighbor’s death."

The key scene which has got fans all over the world talking comes in the 10th episode of the show's first season. Approximately 53 minutes into the episode, it shows a doctor handing over a file to another character.

- The doctor tells her: "We must do more research, but it looks like a mutant coronavirus."

- The concerned recipient replies: "Corona? Then MERS?"
- "MERS, SARS, the common flu. They all fall in the same gene family with the same gene information," the doctor says.
- "The coronavirus attacks the respiratory system. During the 2015 MERS epidemic, the mortality rate was over 20 percent."
- The agent then asks: "But that's not serious enough to be used as a weapon. Am I wrong?"
- The doctor says: "Like I said, this is a mutant virus. Someone tweaked it to increase the mortality rate to 90 percent."

Once Netflix subscribers online got wind of the scene, it didn't take long for them to voice concerns.

Predictive Programming Regarding Pandemics in Hollywood Movies

Predictive Programming

Predictive Programming is the technique by which the government or other elite programmers use fictional movies or books as a mass mind control tool to make the population more accepting of planned future events. This was first described and proposed by researcher Alan Watt who defines Predictive Programming as:

“Predictive Programming is a subtle form of psychological conditioning provided by the media to acquaint the public with planned societal changes to be implemented by our leaders. If and when these changes are put through, the public will already be familiarized with them and will accept them as natural progressions, thus lessening possible public resistance and commotion.”

Then it was popularized by Alex Jones and David Icke. The most notable cases of predictive programing are the examples found in the Simpsons, The Dark Night Rises, The Hunger Games, and the oldest being from Futility. Information can be found on blog posts and many notable conspiracy theorists have either made videos on it or have spoken on the subject.

(CNN)Amid fears stoked by the coronavirus, "Contagion" -- a 2011 movie about a pandemic with potentially eerie similarities to recent events -- has been climbing up the iTunes rental charts, reflecting how people often use fiction as a means to process reality.

Yet that film is only one example of a recurring theme in movies associated with such an outbreak, a longtime staple of science fiction that has always been informed by science fact.

Not surprisingly, the Hollywood version of global pandemics has frequently spiraled off in fantastic directions, birthing armies of zombies in movies like "The Omega Man," "World War Z" and "Pandemic."

More sober stories, however, have tapped into the notion of mankind being threatened with annihilation not by nuclear weapons (a favorite topic in the 1950s and '60s) but a microbial killer.

Early examples include the 1971 thriller "The Andromeda Strain" -- adapted from a book by the prescient author Michael Crichton, who repeatedly returned to concepts (see "Westworld" and "Jurassic Park") in which scientific and technological breakthroughs created existential threats to humankind.

The juxtaposition of those impulses within the genre can be seen in two movies released in 1995: "12 Monkeys," a science-fiction plot about using time travel to try to thwart a nascent plague that will wipe out most of humanity; and "Outbreak," a more grounded premise in which an airborne virus gets inadvertently smuggled into the US from Africa, requiring a team of doctors (led by Dustin Hoffman) to race against time trying to save a town where the infection is spreading.

Nor have screen versions of these stories been confined to fiction. Just last year, the National Geographic network aired "The Hot Zone," a fact-based account about the emergence of Ebola virus in 1989, and Army scientists reacting to potential exposure in the suburbs of Washington DC, via imported monkeys.

The Movie, Contagion, Best Reflects the COVID 19 Pandemic

For all those examples, "Contagion" correlates most directly with the current danger, beginning as it does with a woman (played by Gwyneth Paltrow) who returns to Minnesota with a strange illness after a trip to Hong Kong.

In a matter of days, she's dead, leaving her husband (Matt Damon) in a state of shock, before others begin exhibiting the same symptoms, as the outbreak spreads across the world.

Directed by Steven Soderbergh and written by Scott Z. Burns, the movie offers an alarming glimpse at a worst-case scenario. Rumors and panic begin to spread, and the guardrails quickly start to come off society as the days click by, amid quarantines, looting and chilling scenes of vacant airports.

Watching the movie again, what stands out -- beyond an inordinately good cast that includes Kate Winslet, Jude Law, Laurence Fishburne, Marion Cotillard and Bryan Cranston -- is how difficult it is to convey the global sweep of such a story without sacrificing something in terms of the drama.

Psychosomatic Flu Suggestion Causing Flu Symptoms

People are getting psychosomatic flu symptoms because the media is suggesting to them around the clock that they are contagious.

COVID 19 Extermination and Depopulation Device

This bioweapon virus is being used as an excuse to exterminate civilians and roll out medical martial law. If this scenario goes full live in America, which I think was the plan all along, we'll see a ramping up of police and United Nations presence immediately. To what extent, I don't know. Just look at how the mainstream media is blowing it up. There is AGENDA written all over this bioweapon. They want you frightened. This is not just bio terrorism. This is MK ULTRA style mind control and mass social manipulation.

Release a Virus Story and Blame Trump to Hurt his Re-election Chances

Viral posts on social media (Pun intended) claim COVID-19 is no worse than other outbreaks that have occurred in "every election year," suggesting that the new coronavirus is being "hyped" to hurt President Donald Trump.

Media Hyped Viruses Used to Inspire Terror for Social Manipulation and Control

Even many experts say people in the United States shouldn't panic about the COVID 19. The virus is thought to be less lethal than both SARS and MERS, the last zoonotic coronavirus to infect humans, in 2012. And the vast majority of confirmed cases remain in mainland China, as Catherine Kim reported at Vox.

Can we even believe the media hype about Italy's Corona cases, and everywhere else? How many times has the media lied to you even per second since you were born...like every second, right? The media even uses green screen to fake news stories. They have been doing this for decades, and yet people still worship what they say???

"Make no mistake, this is an emergency in China. But it has not yet become a global health emergency," said Tedros Adhanom Ghebreyesus, the director general of the World Health Organization.

Although the outbreak is a "very serious public-health threat, the immediate risk to the U.S. public is low at this time," Nancy Messonnier, director of the Centers for Disease Control and Prevention's National Center for Immunization and Respiratory Diseases, said Friday.

For perspective: The flu kills roughly 35,000 Americans every year. This season, it has already sickened an estimated 15 million Americans and killed 8,200, according to C.D.C. estimates.

Influenza kills more Americans every year than any other virus, Dr. Peter Hotez, a professor at Baylor College of Medicine, told Liz Sabo at Kaiser Health News. But the flu is rarely paid such attention, and fewer than half of adults get a vaccine.

"When we think about the relative danger of this new coronavirus and influenza, there's just no comparison," Dr. William Schaffner, a professor at Vanderbilt University Medical Center, told Ms. Sabo. "Coronavirus will be a blip on the horizon in comparison."

"If Americans aren't afraid of the flu, perhaps that's because they are inured to yearly warnings," Ms. Sabo writes. "For them, the flu is old news. Yet viruses named after foreign places — such as Ebola, Zika and Wuhan — inspire terror."

Netflix Releases A Series Called "Pandemic How to Prevent an Outbreak" Just as The COVID 19 Goes Viral

What are the odds? And the series mentions a virus coming from a Chinese fish market? We are looking a scripted agenda here, not a real viral threat.

Suspicious Pre-Pandemic Items

- Event 201, tabletop pandemic exercise, held in October 2019, partnered by the Johns Hopkins Center for Health Security, the World Economic Forum and the Bill and Melinda Gates Foundation
- Positions advertised for Quarantine Advisors as early as November 15, 2019
- Netflix docuseries on preventing pandemics
- And we have an episode of the Simpsons all the way back from 2010 that presages the current alleged pandemic, which talked of instigating the next phony-baloney crisis of a public health scare (scripted)

Chapter 6

A Trojan Horse of Infection Begging for Vaccines Hypothesis

COVID 19 is largely a respiratory illness that results in pneumonia, just like the flu. Come flu season, every person of all ages is at risk of Influenza (The Flu). Every region across the world is susceptible to the contagious respiratory illness. Being different than a common cold, the flu can take effect suddenly and can range from mild to severe in illness.

What is the flu?

Influenza, commonly known as the "flu," is an extremely contagious respiratory illness caused by Influenza A or B viruses. Flu appears most frequently in winter and early spring. The flu virus attacks the body by spreading through the upper and/or lower respiratory tract.

Influenza flu is a highly infectious disease that usually strikes during the winter season. Globally, it causes an estimated one billion cases of influenza, resulting in 290,000 to 650,000 deaths per year. A person can get the virus simply by being near an infected person that coughs, sneezes or talks, or by touching something with the virus on it.

While many sick with the flu tend to recover within two weeks, some people can develop complications. One of those complications can lead to pneumonia. According to ***Everyday Health***, one-third of pneumonia cases develop from a respiratory virus, with the flu the most common of those. And so, essentially, getting pneumonia from a common flu is entirely likely if you are older, have underlying health issues, or are, otherwise, genetically predisposed to respiratory illnesses. Recall that up to 650,000 people die of the flu each year. (According to ***Global Health Matters*** research.)

And so, even if you’ve only contracted a mild case of influenza (the flu), the infection can severely weaken your immune system. Keep in mind that the virus even keeps your body from correctly taking in air. According to experts, the flu constricts and inflames the airways in your body. This would then, “slow down the movement of air and hinder your ability to clear mucus and secretions.” This inflammation can

cause an increase in your body's mucus production. A buildup of bacteria would then form in your healthy body. Although the body would usually be able to fight the buildup away, influenza changes that. With a weakened immune system, your body may not be able to get over the foreign bacteria and viruses.

This is how those with influenza can easily turn their flu into something much worse...pneumonia. Pneumonia is an infection that causes inflammation in the lungs. Severe coughing, a high fever, and difficulty breathing are the first symptoms. While it affects millions worldwide, it is generally mild and can be treated with medicine.

And so, clearly, COVID 19 is merely a strain of the flu that results in respiratory illness, just like the common flu can in people with underlying health issues. Additionally, 5G EMF radiation would exacerbate the symptoms and easily ramp up the viral damage to trip the body into respiratory illness (pneumonia). In three months, only 10,000 have, allegedly, died of COVID 19 and only 300,000 have been reported to have it. And, these numbers may simply be a media lie, anyway.

The incubation period is long they say, and so, we will not see many deaths for a while. We are told that the logarithmically exponential growth rate of this virus will not truly reveal itself for many months to come. Nevertheless, we are not seeing many deaths, period, and so why all the panic? Am I supposed to wait around for the media to spew out more fake reports about COVID 19 deaths? Is that the idea? And we are hearing about 40% to 50% of the COVID 19 cases recovering and are fine. Wow, what a scary lethal virus! You see, the contradictions abound with all this. It is super contagious and lethal and yet it is not really super contagious and lethal, and you just recover and are fine, actually. It is a huge paradoxical Juggernaut (a huge, powerful, and overwhelming force) of **POTENTIAL THREAT TRJECTORY** but it is little real threat.

It is the forecast and **CLAIM** that this virus is devastatingly lethal which is the engine driving this entire Pandemic. But the real situation seems to be that the only formidable threat here is the Martial Law, Vaccines, and RFID chipping that may result from this pandemic exercise. Everything about this crisis is being sold to us upon the merits and promise of a future threat to humanity. The fear is derived from COVID 19's **POTENTIAL TRAJECTORY** to kill, but, aside from the casualty numbers coming from the entirely unreliable and deceptive mainstream media, the **REAL** threat of COVID 19 appears to be significantly lower than the common flu which can kill up to 650,000 and infect 1 billion each year.

Finally, we are now getting reports from troops and police in Italy that they are not seeing all these dead COVID 19 victims that the media is reporting. Where are these casualty statistics coming from? Who is reporting them? And we all know the CDC and World Health Organization (WHO) are nothing but Vaccine Salesmen, and so we cannot trust anything they tell us. They literally make billions each year from Vaccine sales. Cui bono? Who benefits? Who benefits from this Pandemic? How about Vaccine Salesmen, right? And we all know the media lies about everything. But suddenly, everyone trusts the media because they are paralyzed by fear and highly suggestible.

It all wreaks suspiciously of the agenda to roll out:

1. Martial Law
2. The RFID Chip
3. Vaccines

...using the COVID 19 Pandemic as a **Trojan Horse of Infection Begging for Vaccinations** to sneak these three enemies through the gates, as the public lowers its defenses because of its fear of contagion as they roll them out.

80% False Positives Since Day One are Showing it is a Fake Pandemic

The COVID 19 Test generates false positives for 80% of those who get it. Yet, these results will be used to erroneously quarantine or even dispose of you at FEMA Camps, if you do not avoid the test. This entire thing is s hoax. They are tightening the noose on the world, bit by bit. They have positioned you in a war scenario. There is now a War on Cancer, a War on Drugs, a War on Terror, and now a War on a Virus. They are using terror after terror to paint the world into a corner, and now people are afraid to even get closer than 6 feet to each other. This is a military paradigm that provokes people to comply to anything the government says. They will make this COVID 19 Vaccine mandatory and it will be very dangerous. This will be a primarily untested vaccine that could kill hundreds of millions, just like the lethal, untested 5G network.

The number of people who are dying from COVID 19 is a mere blip on the radar compared to the normal flu. They just keep stoking the flames of fear by saying that the logarithmic exponential death spike is soon to come from this. But it never comes. In the same amount of time of this COVID 19 scare, approximately 162,500

people have died from the common flu. However, about 20,000, worldwide, have **ALLEGEDLY** died of COVID 19, if even that. We do not know any real numbers because the media constantly lies to us. There is an incredibly low infection and death rate with COVID 19. It is just a flu that is getting repackaged and sold as a lethal bioweapon with no evidence from credible sources of such being the case.

***Deaths and Mortality: Data are for the U.S.

Number of deaths per day in The United states: 2,813,503

Number per three months: 233,333 die in America

Death rate: 863.8 deaths per 100,000 population

Life expectancy: 78.6 years

Infant Mortality rate: 5.79 deaths per 1,000 live births

Number of deaths for leading causes of death:

Heart disease: 647,457

Cancer: 599,108

Accidents (unintentional injuries): 169,936

Chronic lower respiratory diseases: 160,201

Stroke (cerebrovascular diseases): 146,383

Alzheimer's disease: 121,404

Diabetes: 83,564

Influenza and Pneumonia: 55,672

Nephritis, nephrotic syndrome and nephrosis: 50,633

Intentional self-harm (suicide): 47,173

COVID 19: 1,000 cases in America and where is this exponential spike???

Does that seem a Pandemic to you? 1000 COVID 19 deaths in three months compared to Influenza and Pneumonia at 13,918?

People have been checking the numbers being reported form the media in hospitals, and they are not seeing hospitals full of patients. But we are seeing worldwide dramatization of full hospital beds by the media and key political figures. It is theater and manipulation. Essentially the common flu is being **CONFLATED** to be COVID 19.

They are using the threat of **POTENTIAL THREAT TRAJECTORY** to instill terror in the average person. Italy has reported that 99% of all COVID 10 fatalities in their country had severe prior health issues. This means the common flu is at hand here, the same as any other year on Earth since forever.

*****Content source: CDC/National Center for Health Statistics. There are approximately 2.8 million people that die every day in The United States**.

The Vaccination Rationale is Based Upon a Relatively Unfalsifiable 80% Positive Test Claim

So, the game is that the COVID 19 tests do not even work because they test 80% positive, but Bill Gates wants to "flatten the curve" of the fake COVID 19 by administering a test that does not even really work. So, people will fail all the time but also be subject to the 80% standard that they are actually not infected with the fake COVID 19. In this way, Gates will force the entire world to take lethal Vaccine. By the way, what are they putting into you with these COVID test kits? What's on the swab?

Pre-COVID 19: It is Minority Report on Steroids

So now the while idea is to test someone to see if they may be infectious, even though the test is 80% false positive, so they are really useless, ultimately. But, if there is any suspicion you may have been infected with COVID 19, you will be tracked down and forced into quarantine, and ultimately, forced to take the Vaccination. And if the Artificial Intelligence Contagion tracking system determines that you have been in contact or proximity of someone who might have been infected, you are treated as an infected person and handled accordingly.

Does everyone see how our world is turning into the movie, Minority Report on steroids? In Minority Report, they use a system called Pre-Crime to identify POTENTIAL CRIMINALS, in order to apprehend them BEFORE they have

committed any crime. They were merely suspected of committing a crime in the future.

This is exactly what we are seeing with this COVID 19. If you ARE SUSPECTED of being infected and identified by an almost useless 80% false positive test, you are handled accordingly.

We have a new Pre-Crime system and it is called Pre-COVID 19.

The COVID 19 is a Trojan Horse for the RFID Chip, Vaccines, and Martial Law

How easy it would be to introduce vaccines and martial law by entering the proverbial city with a Pandemic scare. Nobody would question the vaccine and martial law rollout if it i

Study: Flu Vaccine Causes 5.5 Times More Respiratory Infections – A True Vaccinated vs. Unvaccinated Study

Health Impact News Editor Comments:

While the government in the U.S. continues to resist doing a true study on vaccinated vs. unvaccinated children or adults, stating that such a study would be "unethical", researchers in Hong Kong have conducted a true vaccinated vs. unvaccinated study on the influenza vaccine. This is probably one of the few, if not only, true study conducted in recent times where a real placebo was actually used and compared to the vaccine. The results are quite remarkable, suggesting that it is unethical NOT to pursue more studies comparing vaccinated and unvaccinated populations. People receiving the flu vaccine suffered from other respiratory infections at a rate 5.5 times more than the placebo group!

The utter absurdity of vaccination 'science' is revealed in this study. It claims a flu vaccine results in less disease risk because it causes antibodies to develop, in spite

of not reducing the likelihood of contracting the disease and also resulting in 5.5 times more incidents of similar diseases!

Would you be interested in a vaccination that results in more than 5 times as much illness? If you take the seasonal influenza vaccination, that's what you're doing. The seasonal trivalent flu vaccine results in 5.5 times more incidents of respiratory illness, according to a study published in Clinical Infectious Diseases.

The study is particularly noteworthy because it was a double-blind placebo-controlled trial—and the researchers used saline solution, a genuinely inactive placebo, as a standing for the trivalent flu vaccine. Most vaccine trials utilize active placebos, which are substances that include ingredients used in the vaccines, making the studies meaningless—though this fact is almost never revealed in the writeups.

Subjects were followed for an average of 272 days. The active influenza vaccine administered was Sanofi Pasteur's Vaxigrip. The trial included children aged 6-15 years. 69 were given Vaxgrip and 46 received the saline placebo.

With regard to effectiveness against influenza, the authors wrote:

There was no statistically significant difference in the risk of confirmed seasonal influenza infection between recipients of TIV [trivalent influenza inactivated vaccine] or placebo.

The flu vaccine provided no benefit!

The authors tried to cover that by adding:

TIV recipients had significantly lower risk of seasonal influenza infection based on serologic evidence.

In other words, the authors are trying to suggest that, in spite of the fact that vaccine recipients suffered as much genuine influenza as those who'd received a placebo, they still benefited because of "serologic evidence". This "serologic evidence" consists of antibodies produced as a result of the vaccine, which is the standard method of determining a vaccine's effectiveness.

In other words, a vaccine's effectiveness is not determined by whether it prevents disease, but rather by whether it causes antibodies to be produced!

But the story is even worse than this. The study also demonstrated that the vaccine resulted in recipients having 5.5 times more respiratory illness. Here's a partial breakdown of their results:

	Vaccinated	Placebo(saline)
Any Seasonal Influenza	58	88
H1N1 (Swine Flu 'Pandemic')	58	0
Total Influenza Cases	116	88
Non-Influenza Viruses		
Rhinovirus (common cold)	230	59
Coxsackie/Echovirus	160	0
Other Respiratory Viruses	97	29
Total Other Viruses	487	88

As you can see, even though the authors claim that there was no distinction in cases of influenza between the subjects who received a vaccine and those who received the placebo, the reality seems to be quite different: There were a total of 116 influenza cases in the vaccinated group and 88 in the placebo group.

The authors play with statistics in this study by using assumptions about whether people actually had diseases, because there were many reported instances that couldn't be verified. They came up with a relative risk of 4.4. In any case, relative risk is actually a meaningless statistic here, because it requires that exposure to the causative agent be known, which it clearly wasn't in this study.

I prefer a simpler, more straightforward—and, I believe, more honest—approach of simply comparing the numbers of cases of disease. Doing that, we get 487 ÷ 88, which tells us that those who were vaccinated were 5.5 times more likely to contract a confirmed respiratory illness!

Now, let's take a look at the other respiratory illnesses that people were more likely to contract as a result of being vaccinated for influenza. The rhinovirus is the common cold, so it isn't a big deal. However, coxsackievirus and echovirus are quite different. Both of them are known to cause meningitis, paralysis, hepatitis, and heart disorders. This is not common, but the same thing is true of poliovirus. It also causes

a usually minor respiratory illness, but in rare cases can result in much the same harm that coxsackievirus and echovirus can.

It is, therefore, reasonable to suggest that the rate of severe crippling diseases may also be increased by the influenza vaccine, and potentially by any vaccine against a respiratory illness.

Implications

This study's implications are quite serious. The authors suggest:

Receipt of TIV could increase influenza immunity at the expense of reduced immunity to

Non-influenza respiratory viruses, by some unknown biological mechanism. Alternatively, our results could be explained by temporary nonspecific immunity after influenza virus infection, through the cell-mediated response or, more likely, the innate immune response to infection.

In other words, the act of injecting antigens probably damages the innate cell-mediated immune response, the part of the immune system that protects without the need of resorting to development of antibodies. They go on to state:

The phenomenon of virus interference has been well known in virology for >60 years.

The interference of vaccinations with the innate cell-mediated immune response is well known! The authors go on to cite several sources supporting this fact.

In summary, this study demonstrates:

1. **Influenza vaccines provide no benefit.**
2. **Influenza vaccines cause a hugely increased number of respiratory illnesses.**
3. **Influenza vaccines—and very likely other vaccines—harm the innate cell-mediated immune response, which results in a significant increase in infectious disease incidents.**

Nonetheless, our agencies of health destruction, such as the US's alphabet soup of FDA, CDC, and NIH, the UK's NHS, MHRA, and DOH, Australia's ANPHA, and Canada's Health Canada, plus the international WHO and massive foundations such as the Gates Foundation and GAVI—these and so many more routinely lie

about the reality of vaccinations. They use fear tactics and lies to promote the profiteering of Big Pharma and Big Medicine at the expense of the populace, and worse, of our children.

The reality of all these agencies is that, though they may have been created for the purpose of benefiting our health, they've been co-opted by Big Pharma and Big Medicine, who have managed to buy their way into them. The result is that these agencies now actively promote, and even enforce, the use of products and methods whose first purpose is to make profits. If that means the public's health must suffer … apparently, it's a small price to pay when it doesn't affect the bottom line.

Dr. Drew Pinsky Talks About the Coronavirus

PINSKY: I don't know what they're talking about. We used to point at the way Indiana responded to the opiate and the HIV epidemic as the model for the country. I don't know what they're talking about. The only reason I felt comfortable with Pence as Vice President. I was aware of his track record in Indiana in handling these serious problems, and they handled them better than most states did, almost any other state. So, I don't know what the hell people are talking about. That is fake news...

We have in the United States 24 million cases of flu-like illness, 180,000 hospitalizations, 16,000 dead from influenza. We have zero deaths from coronavirus. We have almost no cases. There are people walking around out there with the virus that don't even know they have it, it's so mild. So, it's going to be much more widespread than we knew. It's going to be much milder than we knew. The 1.7% fatality rate is going to fall. Where was the press during the Mediterranean Corona outbreak, where the fatality rate was 41%? Why didn't they get crazed about

MERS or SARS? This is an overblown press-created hysteria. This thing is well in hand. President Trump is absolutely correct.

No Ability to Isolate and Identify a Specific Coronavirus

Commenter on Off-Guardian articles on COVID-19, VirusGuy, explains how PCR (Polymerase Chain Reaction) testing cannot isolate a specific coronavirus nor the viral load.

(While the moniker "VirusGuy" may undermine credibility to a degree I think we can accept that the poster may be concerned about his job and rather than judge by credentials look at what he says which tends to align with Dr Wolfgang Wodarg's words in link below.)

The 'gold standard' in testing for COVID-19 is laboratory isolated/purified coronavirus particles free from any contaminants and particles that look like viruses but are not, that have been proven to be the cause of the syndrome known as COVID-19 and obtained by using proper viral isolation methods and controls (not PCR that is currently being used or Serology /antibody tests which do not detect virus as such).

PCR basically takes a sample of your cells and amplifies any DNA to look for 'viral sequences', i.e. bits of non-human DNA that seem to match parts of a known viral genome.

The problem is the test is known not to work.

It uses 'amplification' which means taking a very, very tiny amount of DNA and growing it exponentially until it can be analyzed. Obviously, any minute contaminations in the sample will also be amplified leading to potentially gross errors of discovery.

Additionally, it's only looking for partial viral sequences, not whole genomes, so identifying a single pathogen is next to impossible even if you ignore the other issues.

The Mickey Mouse test kits being sent out to hospitals, at best, tell analysts you have some viral DNA in your cells. Which most of us do, most of the time. It may tell

you the viral sequence is related to a specific type of virus – say the huge family of coronavirus. But that's all.

The idea these kits can isolate a specific virus like COVID-19 is nonsense.

And that's not even getting into the other issue – viral load.

If you remember the PCR works by amplifying minute amounts of DNA. It therefore is useless at telling you how much virus you may have.

And that's the only question that really matters when it comes to diagnosing illness. Everyone will have a few viruses kicking round in their system at any time, and most will not cause illness because their quantities are too small. For a virus to sicken you need a lot of it, a massive amount of it. But PCR does not test viral load and therefore can't determine if osteogenesis is present in sufficient quantities to sicken you.

If you feel sick and get a PCR test any random virus DNA might be identified even if they aren't at all involved in your sickness which leads to false diagnosis.

Mind Control: The Government is Treating Grown Adults Like Infants

1. Wash Your hands!
2. Stay away from people. Social Distance!
3. Don't sneeze on people!
4. Practice good hygiene!
5. Again stay 6 feet away from people!!!!

Listen to the police song, "Don't Stand So Close to Me"

So now the government is treating everyone like an infant to assume even more power from this mind control. And people are being encouraged to tattle on others for transgressing any of these codes. And they are using infrared to scan the environment to find people who are possibly infected to bring them into treatment before they are even diagnosed???

It is Minority Report on steroids, now.

Chapter 7

5G and Cellphone COVID 19 Sky Net Hypothesis

There is good reason to believe that bioweapon engineering was involved in creating COVID 19, in spite of detractors claiming otherwise. The Coronavirus "bioweapon" might have been a Chinese vaccine experiment gone wrong, or it might have intentionally been released, who knows. Nevertheless, it exhibits genetic engineering characteristics. Its genes contain "pShuttle-SN" sequences, proving laboratory origin.

Recently, a paper published in the Biorxiv.org journal presented findings that indicated the coronavirus appeared to be engineered with "key structural proteins" of HIV. The paper, entitled, "Uncanny similarity of unique inserts in the 2019-nCoV spike protein to HIV-1/ It was concluded that the engineering of coronavirus with such gene sequences was "unlikely to be fortuitous in nature," providing strong scientific support for the theory that the coronavirus is an engineered bioweapon that escaped laboratory containment in China.

As detailed by James Lyons-Weiler, PhD, founder of the Institute for Pure and Applied Knowledge and author of 57 peer-reviewed publications, an analysis of the gene sequence for the coronavirus finds a peculiar sequence called "pShuttle-SN." This sequence is the remnant of a genetic engineering sequence that's used to insert genes into viruses and bacteria. It provides irrefutable "open source" proof that the coronavirus now circulating in the wild was engineered in a laboratory. Every lab that has the gene sequence can see this for themselves. It's right out in the open, which is why we describe this revelation as "open source." This sequence has a 92% match with the Spike protein from the SARS coronavirus.

What we may in fact be looking at is a hidden attempt by the Chinese to get a jump on this, the economics of vaccines, but they were failing, and that's why the last time there was a SARS vaccine, the vaccine developers could not get funding because the trial mice, the rats were dying. It's not just a rogue coronavirus that just happened to acquire this SARS element. It's a laboratory spliced virus. It has escaped from the laboratory or people have been vaccinated with it and that's why it's in their bodies.

If it's an escaped vaccine strain that has now gone wild, the entire world is now vulnerable to the SARS-coronavirus gene insertion which was previously found to be killing lab animals, which is why the SARS vaccine program was halted (because it was too dangerous to test on humans).

There's a huge difference in the predicted health outcome for the world if this is a vaccination experiment in China versus just a laboratory escaped virus. In the vaccination experiment, you're not vaccinated against coronavirus with that vaccine, so if the Chinese tried to get a jump on the vaccine market by surreptitiously running clinical trials against the coronavirus, and made their elderly and immunocompromised more susceptible to death due to subsequent infection by ANY coronavirus with this protein that's in the vaccine, then the rest of the world has a serious problem. In other words, this COVID 19 supercharges the common flu and adds a protein spike that locks onto 5G EMF to literally break down the body's natural immunity response to the average Coronavirus Flu. Further, cell phones actually give a sizable dose of EMF radiation, and so just a normal cell phone may be activating the protein splice in COVID 19.

My hypothesis is that COVID 19 is spliced with a gene protein in such a way that it possesses a unique programmable protein characteristic that remains dormant unless activated by intense 5G EMF radiation. There are microtubules connected to the DNA at the axion. These microtubules are electromagnetically driven. The COVOD 19 protein splice helps to facilitate an electromagnetic conductivity that the 5G network can easily exploit to create cell damage and respiratory failure as the EMF radiation robs the body of oxygen as it attempts to pass through the water and oxygen rich environment of the human body. In other words, the COVID 19 virus, when activated by 5G EMF radiation, literally suffocates the body. The pneumonia damaged lungs that the normal Coronavirus may incur in people with previously compromised immune systems creates the perfect storm for 5G radiation to finish the job on the respiratory system. This is a brilliantly engineered bioweapon.

And now we are beginning to piece the puzzle together to determine that COVID 19 and 5G are a package deal. A 5G network was rolled out at both Wuhan and the Princess Cruise ship that was struck down with COVID 19. Additionally, 5G EMF, or analogs thereof, such as cellphone presence, can be linked to heavy infection spots in Italy, California, NYC, Denmark, Japan, etc... virtually anywhere the COVID 19 seems to strike hard.

Lastly, as nightmarish as this sounds, the normal cellphone may be activating this COVID 19 protein splice and creating the mass illness. Afterall, cellphones are

virtually everywhere. And it is not the cellphone tower that gives you the EMF radiation. It is the cellphone, itself.

Wuhan Bioweapon Lab Theory

Another popular theory is that the virus was engineered in a lab and deliberately released by, take your pick, the Chinese or American government. Over on the Facebook 5G and microwave radiation group, an article from Technocracy News claims: "It is becoming pretty clear that the Hunan Corona Virus is an engineered bio-weapon that was either purposely or accidentally released."

Corona Fear Virus and The Forces of Illness

There is much to be said about the recent Coronavirus "epidemic" and the origin of the virus – if it's man-made, a bio-weapon, related to 5G, or just a "natural" mutation – or if there even is a virus, to begin with. This article is not an attempt to address these questions in-depth and the various theories popping up almost daily (and things are changing quickly), but some food for thought from a different perspective in light of the topics already covered on Piercing the Veil of Reality over the years. However, on a basic level, I recommend questioning everything, ESPECIALLY anything by the CDC, WHO, the government and any mainstream media outlets. This should go without saying for anyone who is aware of how the propaganda, control, and disinformation works on a basic 3D matrix level.

Let's look at it from a general matrix, metaphysical, and occult perspective, keeping in mind past patterns of similar so-called "epidemics" and viruses.

The Fear Program, Frequency Resonance Vibration, and the Immune System

On a basic level, they want to lower the frequency of the collective by instilling fear by any means. The fear virus in the environmental/collective consciousness is more contagious than any disease-virus. On a metaphysical level, fear weakens the aura/protective shield which negatively affects the immune system on a physical level, making one more susceptible to any disease/virus, even just the common flu/cold, hence more "cases" to possibly manipulate the numbers as Jon Rapoport pointed out in his article "Coronavirus Covert Operation".

Fear makes people act irrational, and then they are easier controlled, willingly giving up freedom, rights, etc. It activates the reptilian brain of pure physical survival instinct (this relates to the dark side of the "prepper mind" as well which may attract that which one is "prepping" for if coming from a place of fear, i.e. self-fulfilling prophecy).

It's easier to mind control people when they are in a state of fear. People then also start to police each other and keep each other in check. They can even become afraid of each other because of fear of getting infected. They turn into authoritarian followers to the extreme, following all orders, laws, and rules without questioning driven by fear (most people anyway).

They may also want to trigger a social/economic "meltdown", "shortage", and travel restrictions to keep "people in check" and then appear as the "saviors" to bring the "cure" (i.e. vaccine), create new systems, regulations, and laws they've been waiting to implement anyway but needed a "reason" to do so.

In short, it's the Hegelian dialect of Problem-Action-Solution. If they're able to pull through with it and where it's leading to remains to be seen. A lot is happening on unseen levels and I'm not the person to project either Fear or Hope into the future, the two opposites of the same coin and both are mind traps.

A Timeline of Fear Programs

As we know (the ones who are aware of the hyperdimensional matrix and the mechanics of occult hostile forces), the hidden adverse forces feed off of fear emanating from humans. The fear frequency acts as entry points for hyperdimensional interference and hence people are also easier controlled from occult realms via thought injections and emotional manipulation. All this happens outside any conscious awareness.

So, first of all, check yourself when you sense FEAR creeping in. Reject it from your consciousness. Literally, don't believe any thoughts of fear or worry. They are not "your" thoughts anyway. This is the most important protection, regardless if the coronavirus is real or not or whatever the agenda is. Remember, their goal is to get you into a state of fear first and foremost as they've always attempted throughout the years with other "scary" news, "threats, and "epidemics".

If you want to get more reliable information about the coronavirus and epidemics in general, I highly recommend the blog of Jon Rapoport. He's been exposing the medical mafia cartel and "epidemics" for 19 years. I have been following

his work for over a decade and he always nailed it each time. His track record speaks for itself.

However, careful of becoming "obsessed" with this topic as this will be counter-productive from a metaphysical perspective. It's not about denial and living in a forced New Age bubble of "positivity". Stay aware "objectively" and informed to a degree without feeding it emotionally (i.e. getting into fear/worry) and then act accordingly, calmly with your intuition, discernment, and reason intact. But also, be aware of the basics of the matrix modus operandi for it is nothing new, really.

Fear-Based Economy

We have been discussing this topic on the Piercing the Veil of Reality Forum as well and Tom Montalk made an excellent point about that, not only regarding the virus scare and the fear/paranoia frequency but regarding "saturation", taking in information, and "reality creation":

"The fear propaganda is an old trick to push 3D solutions to 3D problems while propagating hidden 4D attacks. Often the spiritual/occult damage from the "solution" is worse than the physical problem itself.

One thing I discovered regarding illnesses is that, besides fear drawing it in, anything that programs the subconscious will do so. For example, several times now I've gotten sick after looking at a photo of a virus and innocently dwelling on it in a daydreaming kind of way. The alpha brainwave state is very suggestible that way. It's like a hypnotic command.

Or similarly, thinking to myself "Gee, haven't had the flu/injury/accident in a while, that's great!" — then it happens. Why? Well I'm momentarily thinking "flu", dwell on it in an alpha state, have a positive emotion of "great!" and then forget all about it and go about my day. That's the exact formula the Manifesting / Secret / YCYOR people use. Occultists say it creates a thoughtform that manifests into physical reality, psychologists would say it's a form of autosuggestion. Either way, it shows that fear isn't the only thing that can draw something in.

Another is saturation. If you're reading coronavirus news and forums virtually every hour of your waking life, you're saturating your mind with that and plugging into the energy field of others doing likewise, and the whole thing starts unnecessarily bleeding over into your personal corner of reality. Same with getting obsessed with aliens, demons, gang-stalking, etc.

Ironically, the feeling of vulnerability from not being prepared can draw something in if the fear takes on a life of its own (literally), while the peace of mind from having basic security in place can attract more peace and security.

And lastly, another opening can come from severe stress / deep emotional wounds that lead to symbolic illness. If I recall correctly, Rudolf Steiner said that tuberculosis epidemics can be brought on by mass resentment by lower classes against the higher.

Solution isn't denial, but being informed enough to take rational action while, on the energetic/subconscious front, staying focused on ideals like peace, wellness, and empowerment." – Tom Montalk

5G Exacerbates COVID 19 (The Flu)

5G and Electromagnetic Fields (EMF), in general, may exacerbate the COVID 19 (The Flu) strain and make it more lethal to some. In other words, the common flu may be aggressively "activated" or "triggered" in the presence of the 5G network.

It is already clear from over 10,000 studies on 2G, 3G, and 4G that these wireless network radio frequency (RF) radiation network systems are causing significant acute and chronic health problems, including life-threatening diseases such as cancer, heart disease, type-2 diabetes, and mental disturbances, such as depression, anxiety, and increased suicidal tendencies.

Beyond the statements of informed individuals decrying the 5G "rollover", there are also major organizations warning of its dangers. The International Appeal to Stop 5G on Earth and in Space currently boasts approximately 31,300 signatories as of January 11th, 2019.

They write:

"We the undersigned scientists, doctors, environmental organizations and citizens from countries, urgently call for a halt to the deployment of the 5G (fifth generation) wireless network, including 5G from space satellites. 5G will massively increase exposure to radio frequency (RF) radiation on top of the 2G, 3G and 4G networks for telecommunications already in place. RF radiation has been proven harmful for humans and the environment. The deployment of 5G constitutes an

experiment on humanity and the environment that is defined as a crime under international law."

In conclusion, in 2015, 215 scientists from 41 countries communicated their alarm (about the potential of 5G) to the United Nations (UN) and World Health Organization (WHO). They stated that "numerous recent scientific publications have shown that EMF [electromagnetic fields] affects living organisms at levels well below most international and national guidelines". As already stated, more than 10,000 peer-reviewed scientific studies demonstrate harm to human health from RF/MW radiation.

Effects include:

1. Alteration of heart rhythm
2. Altered gene expression
3. Altered metabolism
4. Altered stem cell development
5. Cancers
6. Cardiovascular disease
7. Cognitive impairment
8. DNA damage
9. Impacts on general well-being
10. Increased free radicals
11. Learning and memory deficits
12. Impaired sperm function and quality
13. Miscarriage
14. Neurological damage
15. Obesity and diabetes
16. Oxidative stress
17. Autism
18. ADHD
19. Asthma
20. Negative altered mental states, including increased depression, anxiety, and suicidal tendencies

One can easily see the overlap between EMF and COVOD 19 symptoms, and it may difficult to say which is more at play, right now.

Chapter 8

Conflating the Common Corona Virus with COVID 19: The Test Kit Trick: Economic Armageddon Hypothesis

And so, all these statistics of COVID 19 are based upon common Influenza and standard Corona Virus cases, of which there are already billions. It is common for most people to have relatively innocuous Corona Viruses in their body. That's why the common Lysol can says on the back, "Kills Most Corona Viruses".

The tests hospitals are using will only show Corona Virus. The COVID 19 Tests do not identify COVID 19. Additionally, they do not tell VIRAL LOAD, how much virus. They merely tell you that some form of garden variety Corona Virus is in you, which all have all the time. And so, this is a Test Kit Trick. Key missteps at the CDC have set back its ability to detect the potential spread of Coronavirus. The CDC designed a flawed test for COVID-19, then took weeks to figure out a "fix" so state and local labs could use it. New York still doesn't trust the test's accuracy. It is all looking like a hoax.

They are merely stamping Flu fatalities with the COVID 19 stamp to inflate and keep the numbers up, when in reality, zero are dying from this, but rather, they are simply dying, as they do every year, from the common flu.

We are drowning in false positives, all misdiagnosis. Corona Viruses are incredibly common in everyone and do not cause illness unless the viral load is tremendous. Because the death rate is so low with COVID 19, they have been trying to push the fear of POTENTIAL THREAT TRAJECTORY. It is a clever trick. You hide the fact that your "deadly pathogen" has an extremely low death rate by repeating the mantra, "This is just the beginning!!! More deaths are imminent!" But we never see the death rise significantly, except for flu cases that are re-branded as COVID 19.

Then you use this POTENTIAL THREAT TRAJECTORY projection as an excuse to quarantine, and then used the quarantine as an excuse for the low death rate. By doing this, the POTENTIAL THREAT TRAJECTORY becomes your tool

to maintain the lock down. So, then they can keep you in lock down any time they want, for complete social control. Social distancing becomes the phony battle cry and reason for handling the situation.

But because they still cannot produce the high death rate for this fabricated Pandemic, they are really pushing the effectiveness of the social distancing. But Italian reports have gone on soaring despite a country wide lock down. And places where the lock down is not happening: Grocery stores, banks, fast food places, hospitals, etc... there is no significant rise in contagion. Does COVID 19 select only people who don't work in the public sector...because they are still out there worlding and are not sick in any extra way, as thousands of personal cellphone pictures have shown. It is just the mainstream media that paints the crazy Pandemic picture.

None of this makes sense if this virus was really lethal. They are just using computers to generate bogus POTENTIAL THREAT TRAJECTORIES to hide the fact that there are is no high death rate. This is really about social CONTROL, not health or public safety.

And now we are in the midst of an Economic Armageddon, where Democracy has been suspended and law enforcement has been given the type of incredible powers that you would only see in a Draconian Fascist regime.

Check the COVID 19 Box, Please

They just put a check on the COVID 19 box on the medical forms, and suddenly, you have it. It is just ridiculous.

Classic NAZI Trick. The Bigger the Lie, The More They Will Believe It...

Any more questions?

People Are Just Dying from the Common Flu

Most people who die from COVID 19 already has underlying health conditions or were very old. Nothing special here. People are just dying from the common flu and the deaths are being conflated to be from some super virus COVID 19 Strain.

They are just reclassifying everything as COVID 19.

The Mark of the Beast Hypothesis

Rest assured, that cash will be made illegal because it carries the virus, and you will be given a mandatory vaccine. Once you get the vaccine, you will receive a MARK. This mark will be necessary to buy, sell, or travel etc... This is the infamous Mark of the Beast that The Bible says. You will have to scan your mark to enter a grocery store etc... Further, they may make the COVID 19 Vaccine with RFID Chip inside it so when they vaccinate you, the chip is inside you. Then, you would be required to scan this chip to buy or sell etc... The explanation that they would give would be that you need to be chipped so the vaccine proof cannot be exchanged or stolen.

The COVID 19 Viral Load Morning Report

Get ready for the morning announcement about the "COVID 19 Viral Load Report", told with the pretty voice of Scarlet Johansson. This could be the near future:

"Good morning, this is Samantha Higgins in San Diego at The COVID 19 Viral Load Morning Report. How are you all doing this morning? Are you remembering to wash your hands and keep at least 6 feet between you and every other human being? The COVID 19 Viral Load is high in San Diego today due to a variable pressure front and increased smog, but the Sun may give way to rain this evening, with a 10 percent chance of precipitation and a low of 50 degrees. Winds are expected to remain calm at 9 mph, and so no citizens are aloud outside until tomorrow when we expect the Viral Load to diminish.

This message is courtesy of Central Command. And remember Martial Law will always be enforced for your protection and safety. Please, be respectful and obedient to any and all troops who assist you in today's daily containment activity. Have a good morning and, as always, thank you for your cooperation."

Chapter 9

UN Agenda 21 Hypothesis Explained by Ian Theorem

This Corona virus Covid-19 is a hoax. Stop buying into the fear mongering propaganda. This is just an excuse for Martial Law. Btw 5G radiation sickness mimics the effects from a high-grade flu. All of the weird social restrictions are conditioning people to accept Martial Law, I'm talking about being forced to stand 6 ft apart from one another in lines and all of the other strange precautionary measures. This helps reinforce your beLIEf that there is a deadly virus going around. The only dangerous virus you are going to get will be in the form of vaccines.

In Gematria all of these virus names deduce to 9-11. This is how you know it's a hoax. They have been encoded with 9-11, as many hoaxes are, or they're encoded with 33, 666, 9's etc. All numbers used in Freemasonry. It's time to wake up and look into UN Agenda 21-30 because it is here. You are living in the end times and don't think it won't get worse because things can change within the blink of an eye. Now's the time to get your affairs in order and do whatever it takes to protect your family. Start stocking up on water and nonperishable foods but do not start emptying shelves at your local markets because if you do then you will be a part of the problem. Use common sense. Get first aid supplies and if you can Military issue MREs Meals Ready to Eat. Order plenty and keep them in a safe place. If you don't have enough ammo now would also be the time to go out and get some. Godspeed.

The sheeple are gladly accepting this lockdown. It's the most severe case of Stockholm Syndrome I have ever seen. The age-old problem, reaction, solution Hegelian Dialectic is being played out here right before our eyes. Social conditioning right now is a sure marker for people who can't and don't want to think critically. This is UN Agenda 21. People are being told to avoid all crowds and to not congregate together. Obviously so we won't come together and try to overthrow the tyrannical controllers who're trying to murder most of humanity. But people think it's because of a virus that's causing hospitals to be pretty much empty.

This digital dollar (Microchip) is a very scary thing. Imagine not having the same political ideologies and not agreeing with your tyrannical government so your chip gets shut off and you're no longer allowed to buy and sell with the mark of the

beast. No longer will any transaction be private. The biggest help to this Agenda of death are the sheeple who are blindly accepting it. It's easy to see who the critical and analytical thinkers are and aren't. I see people praising the social conditioning of isolating and creating memes about it. Way too many weak-minded individuals out there who're going to slow down the critical thinkers who understand what's actually going on here. This unraveling of society and way of life has been planned out for decades now by the United Nations

JADE HELM 15 was the Initial Rollout of Troops into America, to Begin the Fake Pandemic 2020 Lock Down

JADE HELM 15 and now a super virus has everyone out the way, in their houses, while they roll out troops all of the country to finish the lock down, under the excuse of COVID 19.

Both a Bioweapon and A Terror Device

The COVID 19 mutation of the Corona Virus is not just the flu. Thousands are actually dying horrible deaths from this bioweapon. I've seen leaked videos coming out of China and these people are convulsing on the ground before dying. Hundreds of yellow, blue, and orange body bags with dead victims everywhere in China. Don't let people fool you. It's lethal if you are susceptible to it. At the same time, it is being used as a propaganda story to cause worldwide fear and panic for geopolitical reasons. If your immune system is healthy, you'll be fine. But the more of this virus you get the more sickness you experience. But this is not just the standard Corona Virus from the back of your Lysol can. It's an engineered bioweapon level 4 strain. It's BOTH dangerous and being used as a terror tactic for social manipulation by the Elite.

Soft Kill Eugenics Agenda

Technocratic Plutocrat, Bill Gates and company, are using The COVID 19 fake Pandemic as a means of Soft Kill Eugenics.

What is Soft Kill?

Military war strategists that have identified enemy targets for divide and conquer agendas, whether they are human or nonhuman, apply the exact same kind of war strategies. Whether that target is nations, populations or an entire planet, when assuming the strategy for takeover the strategies are the same. One obvious conclusion for experienced military personnel that attack enemies from the ground or from the air, is that long term planning for implementing soft kill methods have a far better performance record. This is especially so when the intelligence operation can remain concealed and thus requires much fewer physical resources than hard kill methods.

Soft kill is a military term used to describe the covert agenda for slow killing without the knowledge of the person or persons under attack, using disinformation, withholding evidence and Psychological Warfare tactics.

It is the act of disabling an enemy target without the use of outward physical destructive force. Soft kill also refers to the use of hidden technologies to subdue enemies. Such as applying electronic technology countermeasures for crowd control that alter the electromagnetic signature of a person, whether used on individuals, groups or entire populations. Thereby altering the physical body, as well as psychological and emotional behavior of the group that is being targeted for subjugation through the use of electromagnetic technology and mind control.

If we can see the current soft kill measures in the environment that have been methodically put in place through the well thought out long term planning of the Controllers, we can easily see the hidden purpose of these genocidal methods, including the eugenicist policies leading back to the divide and conquer agenda of the NAA. An example of current soft kill agendas is the enforcement of legal poisoning in the general public that is made through vaccinations, water fluoridation, GMO, Chemtrails, herbicides, pharmaceutical drugs and other chemical biological weapons. All of these examples change the electromagnetic frequency and chemistry of the body, Brain, CNS and DNA Signals, which are designed to radically impair immunity, consciousness and intelligence factors over the longer term.

The majority of the population is on high stress overload trying to meet the most fundamental and basic human needs. As a result, many people cannot begin to fathom the larger reality of the off planet NAA divide and conquer agendas, combined with the Controllers on the ground implementation of soft kill methods.

However, there are individual and collective actions that we can take that help us to empower ourselves and each other, and to know that we can make a difference.

Gaining knowledge that this divide and conquer agenda is happening against the people of this earth, and to identify what it looks like in everyday life is the first important step.

We have to see it operating and understand what the motivation behind the agenda really is, before we can find the courage to take productive steps forward. The most empowering step we can take now is developing our heart-based relationship to our higher self and working on ourselves spiritually. We must find within our heart our direct connection to God, our highest power, whatever that sacred heart connection to all of life truly means to you. When we are spiritually connected, we gain the inner strength, courage and higher intelligence that lends itself to the coping skills we need to overcome the Dark Night of the Soul and Spiritual Warfare. Challenging circumstances can often lead us to work towards making important changes in our lives that shift our awareness and priorities to be aligned with our inner spirit. No matter what is happening in our world, we can move into states of greater wisdom that bring more deeply meaningful experiences with others, so that we can exchange unconditional love, peace and contentment.

Chapter 10

What Exactly is a Virus?

Viruses are small protein capsids that harbor genetic information. In the case of enveloped viruses, an additional lipid bilayer surrounds the capsid. In order to replicate, viruses are completely dependent on their host. They replicate their genetic information within cells, assemble and release viral progenies to infect additional cells, and spread the viral infection. The viruses discussed in this review are enveloped. They pinch off from the producer cell and enter the next cell by membrane fusion. Enveloped viruses can spread via two distinct routes, either through the cell-free aqueous environment or, alternatively, by remaining cell associated and being passed on by direct cell-cell contact. --https://jvi.asm.org/content/84/17/8360

A virus is an infectious particle that reproduces by "commandeering" a host cell and using its machinery to make more viruses. A virus is made up of a DNA or RNA genome inside a protein shell called a capsid. Some viruses have an external membrane envelope. Viruses are very diverse. They come in different shapes and structures, have different kinds of genomes, and infect different hosts. Viruses reproduce by infecting their host cells and reprogramming them to become virus-making "factories."

Introduction

Scientists estimate that there is roughly 10^31 viruses. To put it another way, there are over ten million times more viruses on Earth than there are stars in the entire universe. It may seem odd that bacteria can get a virus, but scientists think that every kind of living organism is probably host to at least one virus!

What Is A Virus?

A virus is a tiny, infectious particle that can reproduce only by infecting a host cell. Viruses "commandeer" the host cell and use its resources to make more viruses, basically reprogramming it to become a virus factory. Because they can't reproduce by themselves (without a host), viruses are not considered living. Nor do viruses have cells: they're very small, much smaller than the cells of living things, and are basically just packages of nucleic acid and protein.

Still, viruses have some important features in common with cell-based life. For instance, they have nucleic acid genomes based on the same genetic code that's used in your cells (and the cells of all living creatures). Also, like cell-based life, viruses have genetic variation and can evolve. So, even though they don't meet the definition of life, viruses seem to be in a "questionable" zone. (Maybe viruses are actually undead, like zombies or vampires!)

How Are Viruses Different from Bacteria?

Even though they can both make us sick, bacteria and viruses are very different at the biological level. Bacteria are small and single-celled, but they are living organisms that do not depend on a host cell to reproduce. Because of these differences, bacterial and viral infections are treated very differently. For instance, antibiotics are only helpful against bacteria, not viruses.

Bacteria are also much bigger than viruses. The diameter of a typical virus is about 20- 300 nanometers. This is considerably smaller than a typical E. coli bacterium, which has a diameter of roughly 1000 nanometers. Tens of millions of viruses could fit on the head of a pin.

The Structure of a Virus

There are a lot of different viruses in the world. So, viruses vary a ton in their sizes, shapes, and life cycles. Viruses do, however, have a few key features in common.

These include:

- A protective protein shell, or capsid
- A nucleic acid genome made of DNA or RNA, tucked inside of the capsid
- A layer of membrane called the envelope (some but not all viruses)

Virus Are Not Actually Alive

To Be or Not to Be

The seemingly simple question of whether or not viruses are alive, which my students often ask, has probably defined a simple answer all these years because it

raises a fundamental issue: What exactly defines "life?" A precise scientific definition of life is an elusive thing, but most observers would agree that life includes certain qualities in addition to an ability to replicate. For example, a living entity is in a state bounded by birth and death. Living organisms also are thought to require a degree of biochemical autonomy, carrying on the metabolic activities that produce the molecules and energy needed to sustain the organism. This level of autonomy is essential to most definitions.

Viruses, however, parasitize essentially all biomolecular aspects of life. That is, they depend on the host cell for the raw materials and energy necessary for nucleic acid synthesis, protein synthesis, processing and transport, and all other biochemical activities that allow the virus to multiply and spread. One might then conclude that even though these processes come under viral direction, viruses are simply nonliving parasites of living metabolic systems. But a spectrum may exist between what is certainly alive and what is not.

A rock is not alive. A metabolically active sack, devoid of genetic material and the potential for propagation, is also not alive. A bacterium, though, is alive. Although it is a single cell, it can generate energy and the molecules needed to sustain itself, and it can reproduce. But what about a seed? A seed might not be considered alive. Yet it has a potential for life, and it may be destroyed. In this regard, viruses resemble seeds more than they do live cells. They have a certain potential, which can be snuffed out, but they do not attain the more autonomous state of life.

Another way to think about life is as an emergent property of a collection of certain nonliving things. Both life and consciousness are examples of emergent complex systems. They each require a critical level of complexity or interaction to achieve their respective states. A neuron by itself, or even in a network of nerves, is not conscious—whole brain complexity is needed. Yet even an intact human brain can be biologically alive but incapable of consciousness, or "brain-dead." Similarly, neither cellular nor viral individual genes or proteins are by themselves alive. The enucleated cell is akin to the state of being braindead, in that it lacks a full critical complexity. A virus, too, fails to reach a critical complexity. So, life itself is an emergent, complex state, but it is made from the same fundamental, physical building blocks that constitute a virus. Approached from this perspective, viruses, though not fully alive, may be thought of as being more than inert matter: they verge on life.

--https://www.scientificamerican.com/article/are-viruses-alive-2004/

Why Are Viruses Considered Non-Living?

Viruses are considered non-living because they only exhibit characteristics of living organisms when they are occupying a host organism. A virus consists of a single strand of DNA or RNA enclosed in a protein capsule. They lack the internal structures needed for metabolic processes. When not in a host cell they are dormant and have no biological activity. Dormant viruses are called virions. Once a dormant virus comes in contact with a host cell in becomes an active virus and replicates using structures of the host cell. It has the ability to pass its genetic information on to future generations, which is a characteristic of living organisms, but it is unable to do so without a host cell. Virions can remain dormant for very long periods of time.

Viruses Do Not Cause Illness: The Medical Industry is a Religion and Not Science Based

The Medical Industry is in the business of making money from vaccines and pharmaceuticals. You are constantly being told to bring up the conversation with your doctor about the often-lethal side effects of the pharmaceuticals you take. In other words, these are not medicines. They are poisons. Masking symptoms is known as suppression in homeopathic philosophy. This is seen as the cause of chronic illness. Pharmaceuticals mask symptoms, preventing the body's natural immune response to handle the imbalance.

Pharmaceuticals simply mask a problem. They do not heal anything. The book, ***What Really Makes You Ill? Why Everything You Thought You Knew About Disease Is Wrong Paperback*** by Dawn Lester, clearly shows how the entire medical system is a fraud. There is no scientific evidence that germs or viruses cause disease. Virus are just tiny particles of protein. They are not alive. The Corona Virus image that we are been showing is merely an artist rendering. It is a CGI image. Viruses, Germs, and Bacteria do not cause disease. They are the result of some prior imbalance in the body where the body's natural immune system is taking care of an imbalance, but they do not cause disease. There is no scientific evidence to prove that any microorganism causes disease. You will find no credible scientific evidence that these microorganisms cause disease. Try to find it? You will find no micrographs or physical evidence.

Viruses and bacteria are natural reactions to the body's natural immune system trying to overcome some imbalance in the body. Viruses must be introduced into the body though some Vaccine. They do not merely drift through the air or enter the body through skin contact.

The Corona Virus is the same thing as a common flu. This is the NWO taking over the world with fear mongering propaganda. Our government is at war with us. This world is run on deceit and lies. Mainstream media is their biggest weapon, used to instill terror and cause fear so that the Satanic Elite can then step in with their Hegelian Dialect to put in place their next step to the Satanic Beast System. Get ready for the chip, they are dying to vaccinate and chip everyone.

We are finally seeing, publicly, that most of Hollywood, the fashion, music, and modelling industries, and most of Politics, are governed by Satanic forces. The governments of the world and the royal elite are not here to take care of you. They are here to kill you. They are not unwittingly trying to kill you. They are deliberately trying to kill you. They are deliberately trying to kill you, but for a reason that eludes even them. Within their trance state, what seems good and right, and what is justified as sound reasoning and socially acceptable, is absolute insanity when held up to the fundamental standard of goodness and wisdom. These psychopaths are convinced that Eugenics and the genocide of all Humanity is noble. Many even think they are the saviors of the remaining humans.

What is coming is far worse than merely a Fascist/Communist World State. What is coming is a devastation so massive humanity is going to plead for a New World Order and a Messianic style leader.

The COVID 19 Image is Not Even Real

So, the COVID 19 is real, right? But the only image we have of the COVID 19 is a CGI cartoon, just like the Globe Earth Hoax.

Artificial Intelligence Decides Mankind is the Virus Theory

If I was Artificial Intelligence, and I had determined that Mankind was a dangerous virus, could I not simply generate the continual news narrative that a virus had hit the world, and subsequently, cause enough terror to cripple Mankind to the point of exterminating itself?

Kingsman: The Secret Service (2014) Samuel L. Jackson: Valentine

Valentine: When you get a virus, you get a fever. That's the human body raising its core temperature to kill the virus. Planet Earth works the same way: Global warming is the fever. Mankind is the virus. We're making our planet sick. A cull is our only hope. If we don't reduce our population ourselves, there's only one of two ways this can go: The host kills the virus, or the virus kills the host. Either way...

Arthur: The result is the same: The virus dies.

Gary 'Eggsy' Unwin: So, Valentine's gonna take care of the population problem himself.

Arthur: Well if we don't do something, nature will. Sometimes, a culling is the only way to ensure that the species survives. And history will see Valentine as the man who saved humanity from extinction.

Valentine is Artificial Intelligence, the Illuminati, The UN, or take your pick....

Chapter 11

FEMA Roundup, Martial Law, Hydrogen Cyanide, Operation Rex 84, FEMA's "Kill List", Trains of Death, Guillotines

The world reels with the turmoil of war, geological disaster, and economic collapse, while Americans continue to submerge themselves in illusions of safety and immunity. While rights are sold for security, the federal government, swollen with power, begins a systematic takeover of liberty in order to bring about a New World Order.

Americans, quarantined to militarized districts, become a population ripe for tyrannical control. Fearmongering, terrorism, police state, martial law, war, arrest, internment, hunger, oppression, violence, resistance — these are the new terms by which Americans define their existence.

Neighbor is turned against neighbor as the value of the dollar plunges to zero, food supplies are depleted, and everyone is a terror suspect. There are arrests. Disappearances. Bio attacks. Public executions of those even suspected of dissent.

Even rumors of concentration camps on American soil. This is the backdrop to an unfolding story of resistance. American militias prepare for guerilla warfare.

There are mass defections from the military as true Patriots attempt to rally around the Constitution and defend liberty, preparing a national insurgency against federal forces, knowing full well this will be the last time in history the oppressed will be capable of organized resistance.

It is a time of transition, of shifting alliance, of mass awakening and mass execution. It is an impending storm, an iron-gray morning that puts into effect decades of over-comfort and complacency, and Americans wake up to an occupied homeland. Read Full Article HERE

So…What Exactly Is FEMA Going to Do With 2500 Gallons of Hydrogen Cyanide?

A FEMA source says the Federal Emergency Management Agency has ordered 2500 gallons of hydrogen cyanide to be distributed among FEMA camps and FEMA prison barges nationwide.

Do you know what FEMA has become and what they plan to do with 2500 gallons of hydrogen cyanide? There are very limited uses, and most are not good for human beings.

Wikipedia says:

"Hydrogen cyanide (HCN), sometimes called prussic acid, is a chemical compound with the chemical formula HCN. It is a colorless, extremely poisonous and flammable liquid that boils slightly above room temperature, at 25.6 °C (78.1 °F). HCN is produced on an industrial scale and is a highly valuable precursor to many chemical compounds ranging from polymers to pharmaceuticals."

"HCN has a faint bitter almond-like odor that some people are unable to detect owing to a recessive genetic trait. The volatile compound has been used as inhalation rodenticide and human poison, as well as for killing whales.

Cyanide ions interfere with iron-containing respiratory enzymes. In World War One, Hydrogen cyanide was being used as a chemical weapon against the Central Powers by the French from 1916, and by the United States and Italy in 1918, but it was not found to be effective enough due to weather conditions."

So, unless FEMA is in the manufacturing business or making pharmaceuticals, they have no need for this order.

Wikipedia also says, "A hydrogen cyanide concentration in the range of 100–200 ppm in air will kill a human within 10 to 60 minutes.

A hydrogen cyanide concentration of 2000 ppm (about 2380 mg/m3) will kill a human in about one minute. The toxicity is caused by the cyanide ion, which halts cellular respiration by acting as a non-competitive inhibitor for an enzyme in mitochondria called cytochrome c oxidase. As such hydrogen cyanide is commonly listed among chemical warfare as a blood agent. Full Article HERE.

Rex 84: FEMA's Blueprint for Martial Law Plans Exposed in America

REX 84: FEMA Martial Law Plans Exposed- Under Readiness Exercise 1984 the United States Federal government can impose martial law and round up political dissidents. In light of the fact that the United States Department of Homeland Security has admitted that they consider liberty lovers as their main threat, Rex 84 is a

startling document that could be used to detain American citizens for their political beliefs.

This incisive article on the repeal of civil liberties first published by Global Research in, brings to forefront of debate the ongoing road map towards Police State in America.

We are dangerously close to a situation where ~ if the American people took to the streets in righteous indignation or if there were another 9/11 ~ a mechanism for martial law could be quickly implemented and carried out under REX 84.

The Cheney/Bush administration has a plan which would accommodate the detention of large numbers of American citizens during times of emergency.

The plan is called REX 84, short for Readiness Exercise 1984. Through Rex-84 an undisclosed number of concentration camps were set in operation throughout the United States, for internment of dissidents and others potentially harmful to the state.

The Rex 84 Program was originally established on the reasoning that if a "mass exodus" of illegal aliens crossed the Mexican/US border, they would be quickly rounded up and detained in detention centers by FEM. Read Full Article HERE

Red List, Blue List, Blacklist, You List | Are You on FEMA's 'Kill "List?

There has been a lot of conjecture in the past 40 years in patriot circles about the existence of government "round up lists". Large-scale disaster and war planning exercises, like REX-84 (Readiness Exercise-1984) and Jade Helm 2015, have stimulated endless discourse about whether or not the government maintains a so-called "red list" and "blue list" of people that they deem to be dissidents who they might target for harassment, travel restrictions, or even detention without due process of law.

Because any such lists would presumably be developed and updated under the wraps of a security classification and the Need to Know rule, this topic is understandably rife with conjecture, speculation, and even downright fabrication.

We have to look at all of the evidence and try to see the big picture. Could ALL of this information be real and true, or are these just more conspiracy theories? Yes and No! There are many truths weaved in between lies and misconceptions.

Many things that people believe are simply not true, and many things people do not want to believe are very true. Look into (HR 645), FM 3-19.40, Rex 84, Operation Gardenplot, Operation Cable Splicer, CILFs (Civilian Inmate Labor Facilities) and

Military Police Internment/Resettlement Operations, because these are the real subjects to research and discuss. I have been accused of trying to scare the mass population with this book, but in reality, I am only presenting news that I have researched, in one place for the world to see. Nothing more, nothing less.

FEMA Trains of Death | Armageddon-The Fire of Hell-The Mysterious Coffins of FEMA

What if you would be standing in front of a railway barrier in America with your car and you see this passing by. With the sight of it, you feel that this kind of transport definitely cannot be for cars nor animals, but for people! No reassuring thoughts.

Whoever sees something like this, must know that we live in the End Times! By seeing this very strange kind of transport, you cannot ignore it, or you really have to be blind! They look like prisons of which the windows show a clear picture of this.

Camouflage

These FEMA wagons give a dramatic appearance. There is nothing positive about it. But to reassure the people somewhat, it is said that these trains are for transporting cars and not for transporting people. But who still believes that with seeing such wagons?

It is a fearful future suspect. With seeing these types of wagons, you simply cannot think otherwise. The image of these FEMA trains gives a wrong signal and… as far as man is concerned; the end is near. In what kind of world do we live? Jesus: "This world is not Mine."

From 2008, these trains will be parked everywhere in America until they start moving in 2019. There are 102,000 of these wagons, each with three floors. Approximately 300 people can take a seat on each floor for transport. Total ±900 per wagon.

FEMA Ordered 102,000 Boxcars with Shackles and Guillotines – Why Are Modern Guillotines on Military Bases Throughout North America?

Why Did the U.S. Government Purchase 30,000 Guillotines?

The use of guillotines for "governmental purposes" was lobbied for and passed in the U.S. Congress:

– The information we received is that 15,000 are currently stored in Georgia and 15,000 in Montana.

– Are the beheadings by Muslims today meant to desensitize us against U.S. Government beheadings in the future?

Think about this; Why does the US government need 30,000 Guillotines and over 600 Million rounds of hollow point bullets?

There are over 800 prison camps in the United States. All fully operational and ready to receive prisoners. They are all staffed and even surrounded by full-time guards. But they are all empty.

These camps are to be operated by FEMA (Federal Emergency Management Agency) should Martial Law need to be implemented in the United States and all it would take is a presidential signature on a proclamation and the attorney general's signature on a warrant to which a list of names is attached. Ask yourself if you really want to be on THE list.

FEMA has three-layer boxcars for transporting shackled prisoners to the more than 800 empty and guarded concentration camps across the USA, with 20,000 new prisoner boxcars and 40-foot railroad containers arriving in Oregon from China for our forests for planned martial law in time for military exercises for martial law.

My research and documentation on the boxcars and shackles go far beyond Phil´s interview. Long before I heard of him, I had eyewitness information on these boxcars. A van full of eyewitnesses, missionaries traveling across America to evangelize and pray, stumbled across these boxcars in Montana, near Columbia Falls in Glacier.

They described boxcars, in this case painted black, with shackles welded into them and a modern guillotine at the head of each boxcar inside. As they were photographing mountain scenery, they decided to follow railroad tracks into the wilderness so as to not get lost.

The Fear Industrial Complex: A Multipronged Terror Attack on Humanity by the NWO Elite

How do you control a society? You create fear to lower the IQ of each emotionally triggered person and make them seek the protection of an adult figure like the government.... Big Brother.

Fear is the Mind Killer (DUNE)

For broadcast media, eyeballs equal ratings. For politicians, eyeballs equal votes. For activists, eyeballs equal support for their causes. For corporations, eyeballs equal sales. For the New World Order elite, eyeballs equal submission to authority and the control of the masses. The bottom line: Worry and fear sell. Worry and fear provoke compliance and submission. And now, with this COVID 19 fear, we are facing a submission so great that all of Mankind by lose its liberty forever, no coming back, absolute Elite control over all people. The United Nations sees Mankind as the virus that needs to be eliminated. If nobody fights back, they will do just that. Am I making you frightened yet? Good, you should be, but this is for a real reason, not a fake news story.

Parents, school, and religion used one and the same thing to make us do what they wanted us to do: fear. If you want to manipulate anybody, first make him or her afraid. Once afraid, he or she will be ready to accept your offered suggestions.

This tactic is being continuously used in our everyday life, but we are unaware of it. Have a clear look around you, and you will see what I mean. Politicians are being elected by persuading the masses through the use of fear. Companies are selling their products by manipulating consumers' insecurities in advertising. Journalists influence public opinion by terrorizing people's minds. And these are just a few examples.

Fear is the best weapon of all great manipulators. It can move people to do anything, no matter how nonsensical it is.

Cui bono?

Cui bono? in English "to whom is it a benefit?", is a Latin phrase about identifying crime suspects. It expresses the view that crimes are oftentimes committed to benefit their perpetrators, especially financially. Who benefits from the COVID 19 Pandemic? The NWO elite do, of course, They get to depopulate in a thousand ways using this fear. Viral related death, martial law related violence, international war, starvation, etc... it is a perfect psyop to depopulate the Earth.

Whenever somebody's trying to scare us, the question to ask is, "Are they benefiting from it, and in what way?" If they're selling us a product, if they're selling us their political campaign or their cause or whatever it is, we should ask how big is the danger, really? Is it big, is it small, or is it just that they stand to benefit by making us scared?

In the case of the media, they provide plenty to worry about, like shark attacks being on the rise, killer bees attacking, flesh-eating bacteria and countless other threats. But they are rarely reported with any real perspective on the actual risk involved. Suddenly, the public starts to panic over something that poses minimal risk at most.

If It Bleeds, It Leads: The Fake Stream Media

News programming uses a hierarchy of if it bleeds, it leads. Fear-based news programming has two aims. The first is to grab the viewer's attention. In the news media, this is called the teaser. The second aim is to persuade the viewer that the solution for reducing the identified fear will be in the news story. If a teaser asks, "What's in your tap water that YOU need to know about?" a viewer will likely tune in to get the up-to-date information to ensure safety. The COVID 19 is the ultimate bleed line. And the fake stream media is getting ready to lead you to the solution:

Vaccines and Martial Law

So here are just a few things you have been presented with over the years to frighten, control you, and keep you in perpetual submission to the government for their guidance and protection:

1. **CIA backed terrorists' groups like Al Qaeda and ISIS**
2. **Nuclear Weapons and Weapons of "Mass Destruction"**
3. **Climate Change and the World Ending**
4. **Asteroids from Fake Outer Space**
5. **Pandemics like COVID 19 and a different virus threat every year or so to keep the fear fresh and new**
6. **Economic Collapse**

The NWO Elite want you dead. It is in all their literature, books, and speeches. Agenda 21 of the UN is very clear about depopulation, make no mistake.

Ian Theorem's Theory

This is Martial Law masked as a pandemic. Unless you have a severely compromised immune system you are not going to die from the fu*king flu. If you do, I hope you are staying in, that being said, don't buy into the fear porn. Every year we have a new virus outbreak or disease, SARRS, Ebola, Swine Flu and Anthrax, have you noticed that the narrative is always the same? Outbreak scare, restrictions, etc

then things go back to normal. It's repetitious and with repetition comes conditioning. They are using threat of a fictitious pandemic to enact Martial Law.

You think your scared now, wait until FEMA starts getting involved. It is possible we will start seeing forced vaccines soon and most of you know how dangerous vaccines are. I know a handful of people who got sick, they were sick for a week with flu like symptoms and now they are fine. I'm seeing lack of critical thinking and common sense. I guess this is the most selective virus we've ever had because it knows how to avoid grocery stores, post offices, drug stores, hospitals and all the other places big groups of people are allowed.

So, schools and other businesses need to be shut down because I guess people don't cough in post offices, drug stores etc? Are you with me, you getting this? People are being told to stand at least 6 ft. apart everywhere. If everyone is isolating, we can't come together to confront the real threat, the U.S. gov't. It doesn't take a genius to see that people would be rioting in big crowds right now if Martial Law was openly enacted, by covertly enacting it they're avoiding rioting and protests. These are things many are not thinking about. But why would anyone want to when they've got the Tell•a•lie vision to tell them what to think. I'm not going to tell anyone what to do or how to think, but I do want you to THINK and I do want you to do what you feel is right for you and your family

The Virus is Fake. The Agenda is Real.

See, you have to understand what The United Nations' Agenda 21 is really all about. They pretend Climate Change is the reason they need to kill most of the population.

But in this instance, the real virus is not the COVID 19. Rather, it is the panic and Martial Law that ensues, which allows for the willing acceptance of The Vaccine and potential RFID chipping.

Leslie's Take on All This

I ran the figures comparing percentage of people dying from this serious virus vs. people dying of regular influenza. Only 2.25% of people coming down with Corona Virus are dying. Yet, with common flu, rates of deaths are same or higher.

WHAT THE HELL IS REALLY GOING ON? Yes, this virus, like all new strains of the flu are serious and do kill people. This virus is, once again, a new strain of THE DAMN FLU!!! This IS A SCARE TACTIC SOMEBODY THOUGHT OF TO TEAR DOWN OUR SOCIETY! It's causing losses in everything from kids not graduating from school, ruining small businesses, shutting down our economy, ALL FOR WHAT? The flu is more deadly than this is, and we've never had a problem with THAT. SO, WE ARE ALL COMPLIANT, FOLLOWING WHAT WE ARE PROGRAMED TO DO. WE ARE LETTING OUR GOVERNMENT DESTROY OUR LIVES AS WE KNOW IT. THE MEDIA OUGHT TO BE ASHAMED BC ITS THE VEHICLE BEING USED TO CAUSE PANIC. HEY TRUMP!! MR., "ITS ALL A HOAX", DIDNT ANYBODY ON YOUR STAFF RUN THE NUMBERS? INFACT, I FIND IT VERY CURIOUS THAT YOU HAVE'NT CALLED THIS A HOAX?? LIGHT BULB MOMENT PEOPLE!!! TO ME, TRUMP NOT CALLING THIS A HOAX WAS MY FIRST RED FLAG!! RIGHT? HE CALLS EVERYTHING A HOAX. PRIOR TO THIS, "HOAX", WAS ALL THAT CAME OUT OF THIS WICKEDLY SHREWD BUSINESSMAN MOUTH HMMMMM. WHY IS THE GOVERNMENT TAKING THIS OPPORTUNITY TO DESTROY EVERYTHING WE HAVE WORKED FOR? BILLIONS LOST, ON OUR STOCK MARKET, CLOSING DOWN SMALL BUSINESS OWNERSHIPS, WHILE ALL THE SUPER MART CORPORATIONS THRIVE. CLOSING DOWN OUR CHILDRENS SCHOOLS, TAKING AWAY THEIR RIGHTS TO EDUCATION-KEEPING KIDS FROM THEIR GRADUATIONS, SHUTTING DOWN SPORTS KIDS NEED TO PERFORM FOR SCHOLARSHIPS, ISOLATING US IN FEAR FROM EACH OTHER. WHY? Makes you wonder wtf Trump is really up to. GEE PEOPLE SINCE THE DOW JONES LOST MILLIONS OF DOLLARS SELLING OFF STOCKS, THE PEOPLE RESPONSIBLE FOR CREATING THIS ALREADY KNOW THIS IS THE FLU AND ITS A HOAX, THEY BUY BACK ALL THE STOCKS THAT WERE DUMPED AT A SUPER LOW COST!! CHA-CHING AND CH-CHING $$$$ AGAIN ANYBODY GETTING YOUR LIGHTBULBS ON? This is terrorism created by our own government.

Chinese Hoax for Purge Hypothesis

The Chinese Government just built this "Hospital" in Wuhan in ten days. But the Reality is that the "Coronavirus" is a hoax and this "Hospital" is actually a Prison Camp. For anyone who disagrees with their brutal, fascist dictatorship. They already

had the Plans for this Prison laid out, and the Machinery and hundreds of prefabricated Modules ready to go.

The Drain the Deep State Swamp Great Awakening Hypothesis

One version of what is happening- which you won't see on the news...

I'll believe it when I see this!!

One can always hope though.

Interesting. This morning at 4:30 a.m., Canadian Prime Minister Justin Trudeau was served a criminal indictment by the U.S. for corporate and financial crimes. Media owners were instructed to brainwash everyone that Trudeau and his wife have the Corona virus, and that they won't be leaving their house for a while

Tom Hanks was arrested 48 hours ago for pedophilia and he is currently being kept in a hotel room in Australia, refusing to fly back to the USA. The next celebrity arrests will be Celine Dion, Madonna, Charles Barkley, and Kevin Spacey. All will claim Corona virus infections

Italy's airports have been completely shut down, as over 80 Vatican and financial officials have been served the same criminal indictments for financial crime, pedophilia, child trafficking, and sex abuse

United Emirates have completed mass arrests of their own Royal Family and affiliates

Convicted Hollywood rapist Harvey Weinstein agreed to a deal in exchange for his testimony against hundreds of top Hollywood celebrities and their involvement in the drug business, pedophilia, and child trafficking. Instead of a 55-year sentence, he only received a 23-year sentence. In exchange he provided testimonies against some of the biggest and most powerful names, including Prince Andrew of the U.K., former president Bill Clinton, former vice president Joe Biden, Tom Hanks, Oprah, Ellen DeGeneres, Quentin Tarantino, Charlie Sheen, Bob Saget, Kevin Spacey, John Travolta, Steven Spielberg, Podesta, NXIVM and PIZZAGATE sex trafficking clubs, and hundreds more who all were directly involved with Jeffrey Epstein

Jeffrey Epstein was similarly allowed to make a deal and have his suicide in prison faked in exchange for his testimony

CEOs of some major world corporations have been indicted/arrested, and some have been forced to resign — all in the last 30-60 days — such as the CEOs of the NBA, Harley Davidson, the Bill Gates Foundation, Intel, McDonald's, Cesar Awards, and Disney; the Vatican Chief of Police; etc. Approximately 700-800 more resignations are coming in the next 3 months

The lab-created Corona virus was a cover-up for the mass mandatory vaccination agenda. Now it has become the biggest covert U.S. Intelligence operation that the world has ever seen. This mass 158,000-arrests operation will remove and capture the biggest evil and corrupted politicians, celebrities, and CEOs, including global elites and bankers such as George Soros, U.N. officials, and the founders of GRETA, Inc.

President Trump will win the 2020 elections, and arrests of former U.S. presidents will occur in early 2021. All major arrests will be portrayed by the media as accidental or as conspiracy theories. All arrested individuals will be given "Rommel Death", meaning that they will have a choice between their death bring portrayed to the public as a suicide or an accidental death in return for assurances that his or her reputation will remain intact, or, alternatively, they can choose to face a criminal trial that would result in public disgrace

Some top religious leaders will be arrested or forced to resign, and some will suddenly get "sick." The Vatican will be the first, and the Pope will be removed in 2020. Production of human extracted Adrenochrome will be revealed, and Hollywood and the Vatican will be exposed as being directly responsible for that

Coming up there will be a 2-month complete shutdown of the world's most common operations, such as schools, the stock exchange, some banks, airports, shipping, travel, events, galas, expos, sport games, sport championships, music award ceremonies, NBA/NHL/Baseball games, and ship cruises. (TEMPORARY)>> There will be food shortages and staged electricity power loss. Gas prices will go down, food costs will go up, insurance will go up, gold and silver stocks will fall, and many corporations will either go bankrupt or take a significant financial loss, such as in the case of what's about to happen to Air Canada, Disney, and Coca-Cola

Welcome to the Great Awakening. What's about to happen this summer and fall will change the world's history

Chapter 12
The COVID 19 Hoax

COVID 19 "Live Exercise" Jan 2020

There are a number of indicators that the alleged coronavirus pandemic **is,** essentially, a globally orchestrated "live exercise" in managing a pandemic (preceded in October last year by Event 201, a "pandemic tabletop exercise"). We can infer that the alleged purpose of this exercise is really a flimsy pretext for fearmongering instigated by the global power elite in order to exercise better control - there are about 8,500 of them and 7 billion of us. The scope of social control laid bare by this pandemic is truly scary. What Draconian social controls will be implemented and how this event will be used as a pretext for blaming looming economic problems only time will tell.

Most importantly, however, the power elite always give us the chance to opt out of the response they wish to instill in us. Whenever they hoax us, they always provide deliberate signs, for example, obvious signs of fakery, over-the-top ridiculousness, contradictions, different versions of the story, physical impossibilities, poor expression, grammar and spelling (beyond what might be termed "sloppy journalism"), smiling grievers, lack of explanation where it is expected, Masonic numbers and symbols, the actual truth (or distorted version of it), etc. They are also meticulous in never faking a single piece of evidence so well that it can be used by someone who believes their story to brandish it in defense of it. See They Tell Us Clearly for examples.

As responsible citizens it is our duty to call out the power elite when we can identify a very large number of anomalies in the story, they drown us in with, additionally, not a single shred of evidence to support it.

1. **Lack of Clear Evidence of Reality of The Pandemic but Clear Evidence of Fakery**

There is no clear evidence of the reality of a coronavirus pandemic. We are told of deaths and infections but all we see are lots of the general population and medical staff running around in masks and other protective gear. a man lying on a hospital

floor and a person, most unrealistically, falling flat on their face. There is nothing that favors "real" over "live exercise" for a coronavirus pandemic while there is much that favors "live exercise" (assuming we include deliberate anomalies as part of the MO of a "live exercise") over "real". I ask the reader to consider this very important question: when there are clear anomalies in a story that undermine its reality, what reason is there to believe any part of it without clear evidence?

2. **Pre-Teen Children Immune?**

They call it a novel virus, but children seeming to be immune is pretty novel, isn't it? We've never heard of a virus with that characteristic before. Fits perfectly with "live exercise" though, doesn't it, as we probably wouldn't want to involve young children in such an exercise, would we?

3. **No Ability to Isolate Virus**

The 'gold standard' in testing for COVID-19 is laboratory isolated/purified coronavirus particles free from any contaminants and particles that look like viruses but are not, that have been proven to be the cause of the syndrome known as COVID-19 and obtained by using proper viral isolation methods and controls (not PCR that is currently being used or Serology /antibody tests which do not detect virus as such).

PCR basically takes a sample of your cells and amplifies any DNA to look for 'viral sequences', i.e. bits of non-human DNA that seem to match parts of a known viral genome.

The problem is the test is known not to work.

It uses 'amplification' which means taking a very tiny amount of DNA and growing it exponentially until it can be analyzed. Obviously, any minute contaminations in the sample will also be amplified leading to potentially gross errors of discovery.

Additionally, it's only looking for partial viral sequences, not whole genomes, so identifying a single pathogen is next to impossible even if you ignore the other issues.

The Mickey Mouse test kits being sent out to hospitals, at best, tell analysts you have some viral DNA in your cells. Which most of us do, most of the time. It may tell you the viral sequence is related to a specific type of virus – say the huge family of coronavirus. But that's all.

The idea these kits can isolate a specific virus like COVID-19 is nonsense.

And that's not even getting into the other issue – viral load.

If you remember the PCR works by amplifying minute amounts of DNA. It therefore is useless at telling you how much virus you may have.

And that's the only question that really matters when it comes to diagnosing illness. Everyone will have a few viruses kicking round in their system at any time, and most will not cause illness because their quantities are too small. For a virus to sicken you need a lot of it, a massive amount of it. But PCR does not test viral load and therefore can't determine if an osteogenesis is present in sufficient quantities to sicken you.

If you feel sick and get a PCR test any random virus DNA might be identified even if they aren't at all involved in your sickness which leads to false diagnosis.

And coronavirus is incredibly common. A large percentage of the world human population will have covi DNA in them in small quantities even if they are perfectly well or sick with some other pathogen.

Do you see where this is going yet?

If you want to create a totally false panic about a totally false pandemic – pick a coronavirus.

They are incredibly common and there's tons of them. A very high percentage of people who have become sick by other means (flu, bacterial pneumonia, anything) will have a positive PCR test for covi even if you're doing them properly and ruling out contamination, simply because covis are so common.

There are hundreds of thousands of flu and pneumonia victims in hospitals throughout the world at any one time.

All you need to do is select the sickest of these in a single location – say Wuhan – administer PCR tests to them and claim anyone showing viral sequences similar to a coronavirus (which will inevitably be quite a few) is suffering from a 'new' disease.

Since you already selected the sickest flu cases a fairly high proportion of your sample will go on to die.

You can then say this 'new' virus has a CFR higher than the flu and use this to infuse more concern and do more tests which will of course produce more 'cases', which expands the testing, which produces yet more 'cases' and so on and so on.

Before long, you have your 'pandemic', and all you have done is use a simple test kit trick to convert the worst flu and pneumonia cases into something new that doesn't actually exist.

Now just run the same scam in other countries. Making sure to keep the fear message running high so that people will feel panicky and less able to think critically.

Your only problem is going to be that – due to the fact there is no actual new deadly pathogen but just regular sick people you are mislabeling – your case numbers, and especially your deaths, are going to be way too low for a real new deadly virus pandemic.

But you can stop people pointing this out in several ways.

- You can claim this is just the beginning and more deaths are imminent. Use this as an excuse to quarantine everyone and then claim the quarantine prevented the expected millions of dead.
- You can tell people that 'minimizing' the dangers is irresponsible and bully them into not talking about numbers.
- You can talk bullshittery about r0 numbers hoping to blind people with pseudoscience.
- You can start testing well people (who, of course, will also likely have shreds of coronavirus DNA in them) and thus inflate your 'case figures' with 'asymptomatic carriers' (you will of course have to spin that to sound deadly even though any virologist knows the more symptomless cases you have the less deadly is your pathogen

Take these simple steps and you can have your own entirely manufactured pandemic up and running in weeks.

Response Does Not Match Alleged Epidemiology?

Even if we were able to isolate and show that COVID-19 existed, there is nothing in the epidemiology we are being presented with to justify any quarantine measures let alone the utterly insane measures we are seeing. Even if you don't know anything about epidemiology can you not comprehend some basic statistics?

We don't quarantine flu with an r0 of about the same as this supposed novel covi and numbers of clinical cases hugely surpass it. We accept that more than half a million deaths will happen from flu but need to shield people from a few thousand covi deaths to the point of shutting down the whole of society.

Why would this be the case? Are you less dead if the flu kills you? The hysteria and gullibility are breathtaking.

And please do not tell me we need to act while the numbers are small, because that is our media talking through you and not your own thinking. Stop. Consider. Less than 1% of Wuhan's population was clinically infected with this supposed novel covi. 3% of that 1% died. That is not the profile of a new killer pathogen. It is not the profile of anything you need extreme quarantine to beat. It is the profile of either a new weakly infective pathogen, or, as I strongly suspect, a known pathogen with good herd immunity. A flu virus in fact.

Coronavirus: Why You Must Act Now!!!

That article is being widely promoted and is an attempt, in my view, to confuse ordinary people who are not scientists or epidemiologists into believing they are being given alarming new information when they are not. I believe it to be a well-crafted and cynical effort.

If you break down the actual information provided therein it is basically a very long elucidation of the self-evident fact that in any viral cluster there will be newly emerging clinical and subclinical cases, particularly in the emergent phase, that are not yet incorporated into the stats.

In other words, there is a time lag between cases developing and being officially recognized.

This is the situation with everything, every pathogen, every minor or major contagion cluster. Every cold outbreak, every viral gastroenteritis outbreak. It is absolutely and perfectly normal.

As cases peak and begin to dwindle this lag also becomes less, until eventually new cases are negligible. This also is normal.

The Medium article you refer to, and which I believe to be a sponsored disinformation effort, attempts to present this normal, regular aspect of epidemiology as if it were something unique and terrifying. You will note it never actually says so, but it implies it.

It also uses language and numerous graphs to create a confusing impression of hard-to-assimilate information that is actually no more than noise. This is why I believe it to be disinformation, because this is a known methodology of blinding the public with pseudoscience. Like so:

Take a commonly accepted common sense fact (e.g. that there is going to be a lag between sicknesses happening and being assimilated in to stats), present it as if it were shocking and new and illustrate it with graphs that do nothing but serve to hide the basic and uncontested nature of the fact being hyped. Draw extreme conclusions or imply them. Above all, make your opening statement and closing statement frightening and much easier to assimilate than the word salad in between.

People will read your first sentences, scroll through the bewildering graphs to the end, read your last sentence, be glad they can at least understand this and assume the rest of your study is too smart and science-based for them. They will of course accept your conclusions.

This article we are discussing is an exemplar of this method. The simple fact of lag between clinical development and diagnosis turned into a bewildering forest of scary seeming stats and a completely unsupported conclusion. No one should give it time. It's nonsense dressed up in ways known to have maximum psychological effects.

As I say in my other lengthy post today, I do not believe there is a novel coronavirus causing a pandemic. I believe it is a global scam with very concerning aims.

I think the low numbers of cases reflect this. I think articles such as this one are intended to obscure these low numbers with chilling threats of future very high numbers. The aim is to make the threat seem so imminent it frightens people enough, so they stop pointing out the real numbers don't fit with the pandemic story.

Two species of snake, Chinese cobra and many-banded krait, are wildlife reservoirs of virus?

Chinese researchers, led by Wei Ji, a microbiologist at Peking University Health Science Center's School of Basic Medical Sciences state, "the codons preferred by 2019-nCoV [are] those preferred by a handful of potential hosts that include: humans, bats, chickens, hedgehogs, pangolins, and two species of snakes".

When it is said about coronaviruses …

"Coronaviruses are a group of viruses that cause diseases in mammals and birds. In humans, the viruses cause respiratory infections which are typically mild including the common cold but rarer forms like SARS and MERS can be lethal. In cows and pigs, they may cause diarrhea, while in chickens they can cause an upper respiratory disease. There are no vaccines or antiviral drugs that are approved for prevention or treatment" ...

How did this virus suddenly jump to two species of snake and how would they transmit the virus?

Why are two unrelated species of snake (Chinese cobra and the many-banded krait) specified but no individual species of other animals such as hedgehogs or pangolins and couldn't there be other species of snakes - how many have they tested?

If pangolins are critically endangered where are they transmitting the virus?

Chinese snake theory peer-reviewed and published in journal. Said of by Australian zoologist "It's complete garbage."

We are told in the research article Wei Ji and his team published in the Journal of Medical Virology:

Results obtained from our analyses suggest that the 2019-nCoV appears to be a recombinant virus between the bat coronavirus and an origin-unknown coronavirus. The recombination occurred within the viral spike glycoprotein, which recognizes cell surface receptor. Additionally, our findings suggest that snake is the most probable wildlife animal reservoir for the 2019-nCoV based on its RSCU bias resembling snake compared to other animals.

But in response to this paper:

"It's complete garbage," says Edward Holmes, a zoologist at the University of Sydney's Institute for Infectious Diseases and Biosecurity, who specializes in emerging RNA viruses, a class that includes coronaviruses like 2019-nCoV.

How does research material especially of such a seemingly revolutionary nature get written, peer-reviewed and published so quickly in a scientific journal?

How is it possible that an Australian scientist would say of Chinese scientists' work on such a critical topic, "It's complete garbage." Even if he thought it, isn't this kind of language completely against protocol, especially in this critical situation.

Critically endangered pangolins on sale and civet cat shown (alleged SARS carrier)

Can it be true that critically endangered pangolins are on sale at Wuhan market and why do they show us a civet cat (the alleged source of SARS) in the photo when the caption refers to pangolins?

Contradictory and implausible stories about hospitals being set up

We are presented with two contradictory and equally implausible stories about a "coronavirus" hospital being set up

Story 1: Conversion of empty building to hospital

China opens 1,000-bed coronavirus hospital after just 48 hours of construction - Metro - 29 January 2020

The Dabie Mountain Regional Medical Centre started receiving patients at 10.30pm last night after workers spent just 48 hours converting an empty building. In my opinion, the "empty buildings" below look like drawings and certainly give no sense of having been converted into a hospital.

Story 2: Building of a hospital from scratch - I've seen media reports for 4 days, 6 days, 9 days and 10 days!

China is building special coronavirus hospital to treat 1,000 in just SIX DAYS - The Mirror, 26 January 2020

Amazingly, according to the time-lapse video below, it seems the hospital was, in fact, built in a very short period but however short the period was a great deal of time in planning and pre-fabrication would have had to occur. This hospital was planned, it wasn't built in response to the sudden coronavirus pandemic. And the hospital will most certainly not be just equipped to handle coronavirus cases whatever the number of cases is.

People: lying on floor, falling flat on face, dead on street

Do you find this person laid out on the floor and another falling flat on their face convincing as sufferers? And what about the man stretched out in the video shown within the article, Coronavirus: Man found dead in street in face mask in shocking image in the Independent,

Anomalies in interview with asymptomatic cruise ship passenger

There are a number of anomalies to be found in this 10-minute interview conducted by a CBC news anchor with Rebecca Frasure, a Diamond Princess passenger.

After her diagnosis, contradicting herself, she says, “I never really had any symptoms like cough, like fever when I arrived on Friday at the hospital. Both of those have since resolved.” Later she says she “had a little bit of a cough” but she figured it was just because she’d been outside and on a boat. She really doesn’t seem

to know whether she had cough or fever or not … but she isn't showing any signs now anyways.

She tells us that she completed a questionnaire which asked if you take painkillers. She said she marked "on occasion" (the second time painkillers are referred to). We have to wonder why the questionnaire will ask people if they ever take painkillers – doesn't the vast majority of the population – and what relevance this has to the virus?

Rebecca talks about the ship approaching Tokyo but the host when speaking of location says, "so there you are – about an hour and a half outside of Tokyo" then corrects herself, "outside of Yokohama". Why would she correct to Yokohama?

So, we're supposed to believe that Rebecca, in space-starved Tokyo, showing zero symptoms, is being accommodated in a private room and "being treated" for no symptoms, in other words, simply monitored? We are supposed to believe that? The host says, "Show us your room, looks like a western room." As a commenter asks, "Does she think a Japanese hospital has tatami floors and paper walls?"

Right at the end the host says, "Rebecca Frasure from her hotel … from her hospital room." Doncha love it?

Recognized hoax within alleged real event

A common feature of hoaxes is to fabricate a "recognized" hoax within the larger unrecognized hoax. In the article below, we're told that a passenger declaring he had the coronavirus caused the pilot to return to Toronto (2 hours into a 4 hour flight to Montego Bay), however, once arrived back in Toronto the passenger was declared not to be suffering from the virus. Flight records show that WestJet flight 2702 did indeed return to Toronto, however, this doesn't mean that the return wasn't planned and staged as part of the "live exercise". Perhaps it serves as advertising for WestJet, promoting the message they take the utmost care.

Event 201: Experts Simulated a Coronavirus Pandemic Last Year and It Killed 65 Million

Last October, two months before the coronavirus that causes COVID-19 emerged in central China, a group of public-health experts gathered in New York City for a simulation. Their objective was to determine how industry, national governments, and international institutions could work together to respond to a hypothetical "pandemic with potentially catastrophic consequences."

Such a pandemic is no longer just a hypothetical. This week, the Centers for Disease Control and Prevention said it's preparing for a coronavirus pandemic and

the organization's former director flatly declared that COVID-19 "will become a pandemic."

The characteristics of the virus currently causing global havoc are remarkably similar to the one proposed in the simulation, dubbed "Event 201." The simulated virus, called CAPS for Coronavirus Associated Pulmonary Syndrome, began in Brazilian pigs who passed it to farmers. It resulted in symptoms ranging from mild flu-like symptoms to pneumonia. Three months in, the hypothetical illness had caused 30,000 illnesses and 2,000 deaths.

The fake news report that played at the beginning of the simulation looks like a nightly news report from today.

How did humankind fare in the simulation? Not well. The scenario ended after 18 months with 65 million people dead. The Event 201 website sums it up that state of the pandemic a year and a half in:

The pandemic is beginning to slow due to the decreasing number of susceptible people. The pandemic will continue at some rate until there is an effective vaccine or until 80–90% of the global population has been exposed. From that point on, it is likely to be an endemic childhood disease.

In the weeks after the emergence of the coronavirus in Wuhan, event organizers were forced to answer questions about whether they predicted the current pandemic and contend with a few conspiracy theories.

The exercise was not a prediction, organizers insist. "We are not now predicting that the nCoV-2019 outbreak will kill 65 million people," the Johns Hopkins Center for Health Security said in a statement. "Although our tabletop exercise included a mock novel coronavirus, the inputs we used for modeling the potential impact of that fictional virus are not similar to nCoV-2019."

Rather than serving as a predictive tool, organizers say the simulation was more about identifying opportunities to improve the response to a potential pandemic. To that end, they produced seven recommendations "to diminish the potential impact and consequences of pandemics."
